Datasheet for ABIN1001406
anti-Methyltestosterone antibody

Overview

Quantity:	1 mg
Target:	Methyltestosterone
Reactivity:	Hormone
Host:	Sheep
Clonality:	Polyclonal
Application:	ELISA, Dot Blot (DB), Immunohistochemistry (IHC), Western Blotting (WB), Immunoassay (IA)

Product Details

Immunogen:	Methyltestosterone-BTG
Purification:	Ig Fraction

Target Details

Target:	Methyltestosterone
Abstract:	Methyltestosterone Products
Target Type:	Hormone
Background:	Methyltestosterone and methylboldenone are orally active synthetic derivatives of testosterone.

Application Details

Application Notes:	5.0 µg/mL (EIA)
Restrictions:	For Research Use only

Handling

Format:	Liquid
Concentration:	10.75 mg/mL (U.V. abs at 280 nm)
Buffer:	20mM Phosphate, 150mM NaCl
Storage:	4 °C
