Datasheet for ABIN1001505
anti-Stanozolol antibody

Overview

Quantity:	1 mg
Target:	Stanozolol
Reactivity:	Hormone
Host:	Sheep
Clonality:	Polyclonal
Application:	ELISA, Dot Blot (DB), Immunohistochemistry (IHC), Western Blotting (WB), Immunoassay (IA)

Product Details

Immunogen:	Stanozolol(17)-BSA
Specificity:	Compound % Cross-Reactivity Stanozolol 100 16 beta-Hydroxystanozolol 40 4 alpha-Hydroxystanozolol 0.9 3-Hydroxy-17-Epi-Stanozolol < 0.1 3-Hydroxystanozolol < 0.1 19-Nortestosterone (17alpha) < 0.1 19-Nortestosterone (17beta) < 0.1 Trenbolone (17alpha) < 0.1 Trenbolone (17beta) < 0.1 19-Nor-4-Androstene -3,17-Dione < 0.1 Boldenone < 0.1 Progesterone < 0.1 Testosterone (17beta) < 0.1 Cortisol < 0.1 Estriol < 0.1 Estrone < 0.1 Danazol < 0.1 Methandriol < 0.1 17alpha-Methyltestosterone < 0.1
Purification:	Ig Fraction

Target Details

Target:	Stanozolol
Abstract:	Stanozolol Products
Target Type:	Hormone

Target Details

Background: Stanozolol is an androgenic anabolic steroid used in cases of deficiency in protein synthesis and osteoporosis.

Application Details

Application Notes: 6.6 µg/mL (EIA)

Restrictions: For Research Use only

Handling

Format: Liquid

Concentration: 6.6 mg/mL (U.V. abs at 280 nm)

Buffer: 20mM Phosphate, 150mM NaCl

Storage: 4 °C
