Go to Product page

Overview

Quantity:	100 µg
Target:	EBV-Gp350 (EBV gp350)
Reactivity:	Epstein-Barr Virus (EBV)
Host:	Mouse
Clonality:	Monoclonal
Conjugate:	This EBV-Gp350 antibody is un-conjugated
Application:	ELISA, Immunofluorescence (IF)

Product Details

Clone:	10B5
Isotype:	IgG1 kappa
Purification:	Affinity Purified
Purity:	> 95 % IgG by SDS-PAGE

Target Details

Target:	EBV-Gp350 (EBV gp350)
Abstract:	EBV gp350 Products
Target Type:	Viral Protein
Background:	Synonyms: gp350, BLLF1a

Application Details

Application Notes:	Immunofluorescence: 1+ at 1:3.200. ELISA: 0.100 at 1:800. This antibody is known not to function in western blot under our standard assay conditions
Restrictions:	For Research Use only

Handling

Concentration:	1.0 mg/ml
Buffer:	Phosphate Buffered Saline pH 7.4 (no azide)
Preservative:	Azide free
