Datasheet for ABIN1027697 anti-CD63 antibody (Biotin)

7 Images

3 Publications

Overview

Quantity:	0.1 mg
Target:	CD63
Reactivity:	Human
Host:	Mouse
Clonality:	Monoclonal
Conjugate:	This CD63 antibody is conjugated to Biotin
Application:	Flow Cytometry (FACS), Immunohistochemistry (Paraffin-embedded Sections) (IHC (p)), Immunoprecipitation (IP), Immunocytochemistry (ICC)

Product Details

Immunogen:	HPB-ALL T cell line
Clone:	MEM-259
Isotype:	lgG1
Specificity:	The antibody MEM-259 reacts with an extracellular/luminal epitope of CD63 (LAMP-3), a 40-60 kDa tetraspan glycoprotein expressed by granulocytes, platelets, T cells, monocytes/macrophages and endothelial cells. Cell surface exposition of CD63 is usually activation-dependent.
Cross-Reactivity (Details):	Human
Purification:	Purified antibody is conjugated with biotin LC-NHS ester under optimum conditions and unconjugated antibody and free biotin are removed by size-exclusion chromatography.

Target Details

 CD63 CD63 (CD63 Products) CD63 Molecule,CD63 (LAMP-3, lysosome-associated membrane protein-3), a glycoprotein of tetraspanin family, is present in late endosomes, lysosomes and secretory vesicles of various cell types. It is also present in the plasma membrane, usually following cell activation. Hence, in

tetraspanin family, is present in late endosomes, lysosomes and secretory vesicles of various
has become an widely used basophil activation marker. In mast cells, however, CD63 exposition does not need their activation. CD63 interacts with integrins and affects phagocytosis and cell migration, it is also involved in H/K-ATPase trafficking regulation of ROMK1 channels. CD63 also serves as a T-cell costimulation molecule. Expression of CD63 can be used for predicting the prognosis in earlier stages of carcinomas.,OMA81H, Granulophysin, Tetraspanin-30, Tspan-30, MLA1, ME491, LAMP-3, OMA81H, TSPAN30
967
P08962
Flow cytometry: Recommended dilution: 1-3 µg/mL, positive material: activated platelets, neutrophils and basophils.
The purified antibody is conjugated with Biotin-LC-NHS under optimum conditions. The reagen is free of unconjugated biotin.
For Research Use only
1 mg/mL
Phosphate buffered saline (PBS), pH 7.4, 15 mM sodium azide
Sodium azide
This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.
Do not freeze. Avoid prolonged exposure to light.
4 °C
Store at 2-8°C. Do not freeze.
