Transferrin Protein (TF) (full length)[Go to Product page](#)

Overview

Quantity:	1 mg
Target:	Transferrin (TF)
Protein Characteristics:	full length
Origin:	Sheep
Source:	Sheep
Protein Type:	Native
Application:	Western Blotting (WB), ELISA

Product Details

Purification:	purified from sheep serum
Purity:	> 95 % (SDS-PAGE)

Target Details

Target:	Transferrin (TF)
Alternative Name:	transferrin (TF Products)
Background:	Transferrin concentration and total iron binding capacity (TIBC) are currently used to assess iron status. Although correlation between TIBC and transferrin is generally considered as good, conversion factors between the two analytes found in literature show large differences. Although the price per test is lower for TIBC, there are a number of analytical advantages of serum transferrin.
Pathways:	Transition Metal Ion Homeostasis

Application Details

Comment: Full length native Sheep transferrin

Restrictions: For Research Use only

Handling

Format: Lyophilized

Buffer: Tris pH8.0

Storage: -20 °C
