Datasheet for ABIN1066853
PKC delta Protein

Overview

Quantity:	1 mg
Target:	PKC delta (PKCd)
Origin:	Human
Host:	Please inquire
Protein Type:	Recombinant

Product Details

Target Details

Target:	PKC delta (PKCd)
Alternative Name:	Protein Kinase C delta (PKCd Products)
Pathways:	Interferon-gamma Pathway , EGFR Signaling Pathway , Neurotrophin Signaling Pathway , Thyroid Hormone Synthesis , Regulation of Actin Filament Polymerization , Carbohydrate Homeostasis , Myometrial Relaxation and Contraction , M Phase , G-protein mediated Events , Dicarboxylic Acid Transport , Positive Regulation of Response to DNA Damage Stimulus , Interaction of EGFR with phospholipase C-gamma , Thromboxane A2 Receptor Signaling , Lipid Metabolism

Application Details

Restrictions:	For Research Use only
