anti-PKC delta antibody (AA 347-601)

Images

_					
U	V	er	VI	е	W

Overview	
Quantity:	100 μL
Target:	PKC delta (PKCd)
Binding Specificity:	AA 347-601
Reactivity:	Rat
Host:	Rabbit
Clonality:	Polyclonal
Application:	Western Blotting (WB), Immunohistochemistry (IHC), Immunocytochemistry (ICC)
Product Details	
	DVO 1/DL 0.47 DL 604)

Immunogen:	PKCd (Phe347-Phe601)	
Isotype:	IgG	
Specificity:	The antibody is a rabbit polyclonal antibody raised against PKCd. It has been selected for its ability to recognize PKCd in immunohistochemical staining and western blotting.	
Purification:	Antigen-specific affinity chromatography	

Target Details

Target:	PKC delta (PKCd)	
Alternative Name:	Protein Kinase C Delta (PKCd) (PKCd Products)	
Background:	Alternative Names: PKC-D, MAY1, PRKCD, SDK1, NPKC-Delta, Tyrosine-protein kinase PRKCD, Sphingosine-dependent protein kinase-1	

Target Details

Pathways:

Interferon-gamma Pathway, EGFR Signaling Pathway, Neurotrophin Signaling Pathway, Thyroid Hormone Synthesis, Regulation of Actin Filament Polymerization, Carbohydrate Homeostasis, Myometrial Relaxation and Contraction, M Phase, G-protein mediated Events, Dicarboxylic Acid Transport, Positive Regulation of Response to DNA Damage Stimulus, Interaction of EGFR with phospholipase C-gamma, Thromboxane A2 Receptor Signaling, Lipid Metabolism

Application Details

Application Notes:

Western blotting: 1:50-400 Immunocytochemistry in formalin fixed cells: 1:50-500
 Immunohistochemistry in formalin fixed frozen section: 1:50-500 Immunohistochemistry in paraffin section: 1:10-100 Enzyme-linked Immunosorbent Assay: 1:100-1:5000 Optimal working dilutions must be determined by end user.

Comment:

The thermal stability is described by the loss rate. The loss rate was determined by accelerated thermal degradation test, that is, incubate the protein at 37°C for 48h, and no obvious degradation and precipitation were observed. The loss rate is less than 5% within the expiration date under appropriate storage condition.

Restrictions:

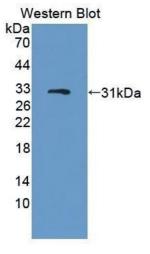

For Research Use only

Liquid

Handling

Format:

Concentration: Buffer: PBS, pH 7.4, containing 0.02 % Sodium azide, 50 % glycerol. Preservative: Sodium azide WARNING: Reagents contain sodium azide. Sodium azide is very toxic if ingested or inhaled. Avoid contact with skin, eyes, or clothing. Wear eye or face protection when handling. If skin or eye contact occurs, wash with copious amounts of water. If ingested or inhaled, contact a physician immediately. Sodium azide yields toxic hydrazoic acid under acidic conditions. Dilute azide-containing compounds in running water before discarding to avoid accumulation of potentially explosive deposits in lead or copper plumbing. Handling Advice: Avoid repeated freeze-thaw cycles. Storage: 4 °C Storage Comment: Store at 2-8 °C for one month. Aliquot and store at -80 °C for 12 months.	T Office.	Elquid
