## Overview

|                      |                                                       |
|----------------------|-------------------------------------------------------|
| Quantity:            | 100 µL                                                |
| Target:              | GUCY1B3                                               |
| Binding Specificity: | Soluble                                               |
| Reactivity:          | Human                                                 |
| Host:                | Rabbit                                                |
| Clonality:           | Polyclonal                                            |
| Conjugate:           | This GUCY1B3 antibody is un-conjugated                |
| Application:         | Western Blotting (WB), ELISA, Immunofluorescence (IF) |

## Product Details

|                   |                           |
|-------------------|---------------------------|
| Immunogen:        | Human GUCY1B3             |
| Isotype:          | IgG                       |
| Cross-Reactivity: | Human, Mouse, Rat         |
| Purification:     | Antigen Affinity purified |

## Target Details

|                   |                                                                                                                                                                              |
|-------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Target:           | GUCY1B3                                                                                                                                                                      |
| Alternative Name: | GUCY1B1 ( <a href="#">GUCY1B3 Products</a> )                                                                                                                                 |
| Background:       | GC-S-beta-1 antibody, GC-SB3 antibody, GCbeta1 antibody, GCS beta 1 antibody, GCS beta 3 antibody, GCS-beta-1 antibody, GCS-beta-3 antibody, GCYB1_HUMAN antibody, guanylate |

## Target Details

cyclase 1, soluble, beta 3 antibody, Guanylate cyclase soluble beta 1 chain antibody, Guanylate cyclase soluble subunit beta-1 antibody, Guanylate cyclase soluble subunit beta-3 antibody, GUC1B3 antibody, GUCSB3 antibody, GUCY1B1 antibody, Gucy1b1, antibody, GUCY1B3 antibody, SGC antibody, Soluble guanylate cyclase small subunit antibody

UniProt: [P20595](#)

Pathways: [Transition Metal Ion Homeostasis](#)

## Application Details

Application Notes: Optimal working dilution should be determined by the investigator.

Comment: Other species are not tested. Please decide the specificity by homology

Restrictions: For Research Use only

## Handling

Format: Liquid

Buffer: PBS with 0.02 % Sodium Azide, 50 % Glycerol, pH 7.3. -20 °C, Avoid freeze / thaw cycles.

Preservative: Sodium azide

Precaution of Use: This product contains sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

Handling Advice: Avoid freeze and thaw cycles.

Storage: -20 °C, -80 °C

Storage Comment: Upon receipt, store at -20°C or -80°C. Avoid repeated freeze.
