**anti-PPP6C antibody (Catalytic Subunit)**[Go to Product page](#)

## Overview

|                      |                                      |
|----------------------|--------------------------------------|
| Quantity:            | 100 µL                               |
| Target:              | PPP6C                                |
| Binding Specificity: | Catalytic Subunit                    |
| Reactivity:          | Human                                |
| Host:                | Rabbit                               |
| Clonality:           | Polyclonal                           |
| Conjugate:           | This PPP6C antibody is un-conjugated |
| Application:         | Western Blotting (WB), ELISA         |

## Product Details

|                   |                           |
|-------------------|---------------------------|
| Immunogen:        | Human PPP6C               |
| Isotype:          | IgG                       |
| Cross-Reactivity: | Human, Mouse, Rat         |
| Purification:     | Antigen Affinity purified |

## Target Details

|                   |                                                                                                                                                                                |
|-------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Target:           | PPP6C                                                                                                                                                                          |
| Alternative Name: | PPP6C ( <a href="#">PPP6C Products</a> )                                                                                                                                       |
| Background:       | FLJ92648 antibody, MGC12249 antibody, PP 6 antibody, PP6 antibody, PP6C antibody, PPP 6 antibody, PPP 6C antibody, PPP6 antibody, PPP6_HUMAN antibody, Ppp6c antibody, Protein |

## Target Details

phosphatase 6 catalytic subunit antibody, Serine/threonine protein phosphatase 6 antibody, Serine/threonine protein phosphatase catalytic subunit antibody, Serine/threonine-protein phosphatase 6 catalytic subunit antibody

UniProt: [Q64620](#)

## Application Details

Application Notes: Optimal working dilution should be determined by the investigator.

Comment: Other species are not tested. Please decide the specificity by homology

Restrictions: For Research Use only

## Handling

Format: Liquid

Buffer: PBS with 0.1 % Sodium Azide, 50 % Glycerol, pH 7.3. -20 °C, Avoid freeze / thaw cycles.

Preservative: Sodium azide

Precaution of Use: This product contains sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

Handling Advice: Avoid freeze and thaw cycles.

Storage: -20 °C, -80 °C

Storage Comment: Upon receipt, store at -20°C or -80°C. Avoid repeated freeze.
