## Overview

|                      |                                      |
|----------------------|--------------------------------------|
| Quantity:            | 100 µL                               |
| Target:              | UCHL5                                |
| Binding Specificity: | C-Term                               |
| Reactivity:          | Human                                |
| Host:                | Rabbit                               |
| Clonality:           | Polyclonal                           |
| Conjugate:           | This UCHL5 antibody is un-conjugated |
| Application:         | Immunohistochemistry (IHC), ELISA    |

## Product Details

|                   |                           |
|-------------------|---------------------------|
| Immunogen:        | Human UCHL5               |
| Isotype:          | IgG                       |
| Cross-Reactivity: | Human, Mouse, Rat         |
| Purification:     | Antigen Affinity Purified |

## Target Details

|                   |                                                                                                                                                                                       |
|-------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Target:           | UCHL5                                                                                                                                                                                 |
| Alternative Name: | UCHL5 ( <a href="#">UCHL5 Products</a> )                                                                                                                                              |
| Background:       | UCH37 antibody, AD-019 antibody, CGI 70 antibody, INO80 complex subunit R antibody, INO80R antibody, Ubiquitin C terminal hydrolase L5 antibody, Ubiquitin C terminal hydrolase UCH37 |

## Target Details

antibody, Ubiquitin C-terminal hydrolase UCH37 antibody, Ubiquitin carboxyl terminal esterase L5 antibody, Ubiquitin carboxyl terminal hydrolase isozyme L5 antibody, Ubiquitin carboxyl terminal hydrolase L5 antibody, Ubiquitin carboxyl-terminal hydrolase isozyme L5 antibody, Ubiquitin thioesterase L5 antibody, Ubiquitin thiolesterase L5 antibody, UCH L5 antibody, UCH-L5 antibody, UCHL5 antibody, UCHL5\_HUMAN antibody

UniProt: [Q9WUP7](#)

## Application Details

|                    |                                                                         |
|--------------------|-------------------------------------------------------------------------|
| Application Notes: | Optimal working dilution should be determined by the investigator.      |
| Comment:           | Other species are not tested. Please decide the specificity by homology |
| Restrictions:      | For Research Use only                                                   |

## Handling

|                    |                                                                                                                        |
|--------------------|------------------------------------------------------------------------------------------------------------------------|
| Format:            | Liquid                                                                                                                 |
| Buffer:            | PBS with 0.1 % Sodium Azide, 50 % Glycerol, pH 7.3. -20 °C, Avoid freeze / thaw cycles.                                |
| Preservative:      | Sodium azide                                                                                                           |
| Precaution of Use: | This product contains sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
| Handling Advice:   | Avoid freeze and thaw cycles.                                                                                          |
| Storage:           | -20 °C,-80 °C                                                                                                          |
| Storage Comment:   | Upon receipt, store at -20°C or -80°C. Avoid repeated freeze.                                                          |
