Datasheet for ABIN1097904 MMP19 Protein (Catalytic Domain)

Overview

Quantity:	100 µg
Target:	MMP19
Protein Characteristics:	Catalytic Domain
Origin:	Human
Source:	Escherichia coli (E. coli)
Protein Type:	Recombinant
Application:	Western Blotting (WB), SDS-PAGE (SDS), ELISA

Product Details

Characteristics:	Recombinant human matrix metalloproteinases expressed in E. coli. Quality control through mass spectrometry and NMR. Usage: enzyme kinetics, screening for inhibitors, substrate digestion, zymography, SDS-PAGE, WB, ELISA, antibody production.
------------------	---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Target Details

Target:	MMP19
Alternative Name:	MMP-19 (MMP19 Products)

Application Details

Restrictions:	For Research Use only
