antibodies - online.com

Overview

Quantity:	100 μL	
Target:	Nidogen 1 (NID1)	
Reactivity:	Mouse	
Host:	Rabbit	
Clonality:	Polyclonal	
Conjugate:	This Nidogen 1 antibody is un-conjugated	
Application:	ELISA, Western Blotting (WB), Immunohistochemistry (IHC)	

Product Details

Immunogen:	Recombinant mouse Nidogen 1	
Specificity:	Mouse Nidogen 1	
Purification:	The antibody is affinity-purified from rabbit antiserum by affinity chromatography using an	
	epitope-specific immunogen.	

Target Details

Target:	Nidogen 1 (NID1)
Alternative Name:	Nidogen 1 (NID1 Products)
Background:	Serum
Gene ID:	18073

Application Details

Application Notes:	Western blot ELISA Immuno	ohistochemistry (cryo	sections) This antibo	ody has not been tested
--------------------	---------------------------	-----------------------	-----------------------	-------------------------

for use in all applications. This does not necessarily exclude its use for non-tested procedures. The stated dilutions are recommendations only. We suggest that the applicant titrates the

antibody in his/her system using appropriate negative/positive controls.

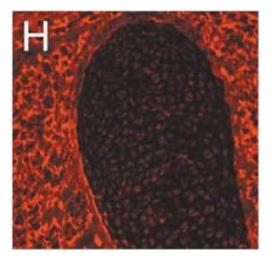

Restrictions: For Research Use only

Handling

Format:	Lyophilized
Reconstitution:	Resuspend in aqua bidest.

Images

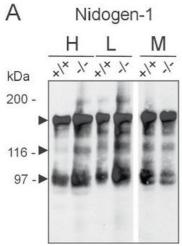

Storage:

4°C

Immunofluorescence

Image 1. Immunofluorescence image of Nidogen 1 staining in cryosection of mouse cartilage and surrounding tissue Salmivirta K et al. (2002) Exp Cell Res 279:188-201

Western Blotting

Image 2. Western Blot analysis of ABIN110110 specificity. Protein extracts of heart, lung and skeletal muscle from normal (+/+) and Nidogen 2-mutant (-/-) mice were separated by SDS-PAGE and immunoblotted with ABIN110110 (1:1000). ABIN110110 detects several Nidogen 1 -specific bands (arrow heads) in normal and Nidogen 2-deficient mice. H, heart; L, lung; M, muscle. Schymeinsky J et al. (2002) Moll Cell Biol 19:6820-30
