

Datasheet for ABIN1108032

anti-LECT2 antibody**1** Image[Go to Product page](#)

Overview

Quantity:	0.1 mg
Target:	LECT2
Reactivity:	Human
Host:	Mouse
Clonality:	Monoclonal
Conjugate:	This LECT2 antibody is un-conjugated
Application:	Immunoprecipitation (IP)

Product Details

Immunogen:	Recombinant full-length human LECT2 purified from culture supernatant of stable CHO transfectant cells
Clone:	G2A5
Isotype:	IgG2b
Specificity:	This antibody reacts with human LECT2.
Purification:	Protein A agarose

Target Details

Target:	LECT2
Alternative Name:	LECT2 (LECT2 Products)
Background:	LECT2, leukocyte cell-derived chemotaxin 2, was originally isolated as a 16 kDa secreted protein

Target Details

having a human neutrophil chemotactic activity. It is indicated that LECT2 protein express in the liver specifically and that several human hepatoma cell lines also express this protein. Furthermore, LECT2 was recently found to be identical to chondromodulin-II, a growth stimulator of chondrocytes, thus LECT2 is thought to be a multifunctional protein. Synonyms: LECT-2, Leukocyte cell-derived chemotaxin-2

Gene ID: 3950

NCBI Accession: [NP_002293](#)

UniProt: [O14960](#)

Application Details

Application Notes: Optimal working dilution should be determined by the investigator.

Restrictions: For Research Use only

Handling

Concentration: 1.0 mg/mL

Buffer: PBS containing 50 % glycerol, pH 7.2. No preservative is contained.

Preservative: Without preservative

Handling Advice: Avoid repeated freezing and thawing.

Storage: -20 °C

Storage Comment: Store (in aliquots) at -20 °C.

Western Blotting
