### Overview

|              |                                                                                                          |
|--------------|----------------------------------------------------------------------------------------------------------|
| Quantity:    | 100 µg                                                                                                   |
| Target:      | CKB                                                                                                      |
| Reactivity:  | Human                                                                                                    |
| Host:        | Mouse                                                                                                    |
| Clonality:   | Monoclonal                                                                                               |
| Conjugate:   | This CKB antibody is un-conjugated                                                                       |
| Application: | Western Blotting (WB), ELISA, Immunostaining (ISt), Immunoassay (IA), Dot Blot (DB), Cellular Assay (CA) |

### Product Details

|               |                   |
|---------------|-------------------|
| Clone:        | 3E10-D10-H2       |
| Purification: | Affinity Purified |

### Target Details

|                   |                                      |
|-------------------|--------------------------------------|
| Target:           | CKB                                  |
| Alternative Name: | CKB ( <a href="#">CKB Products</a> ) |

### Application Details

|               |                       |
|---------------|-----------------------|
| Restrictions: | For Research Use only |
|---------------|-----------------------|

Handling

---

|         |             |
|---------|-------------|
| Format: | Lyophilized |
|---------|-------------|

---

|         |     |
|---------|-----|
| Buffer: | PBS |
|---------|-----|
