

Datasheet for ABIN1123806  
**BID ELISA Kit**[Go to Product page](#)

## Overview

|              |          |
|--------------|----------|
| Quantity:    | 96 tests |
| Target:      | BID      |
| Reactivity:  | Chicken  |
| Application: | ELISA    |

## Product Details

|                   |                                                                                                                                                                                                                                                                                  |
|-------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Detection Method: | Colorimetric                                                                                                                                                                                                                                                                     |
| Characteristics:  | Gallus gallus,Chicken,BH3-interacting domain death agonist,BID,RCJMB04_7d15                                                                                                                                                                                                      |
| Components:       | Reagent (Quantity): Assay plate (1), Standard (2), Sample Diluent (1x20ml), Assay Diluent A (1x10ml), Assay Diluent B (1x10ml), Detection Reagent A (1x120µl), Detection Reagent B (1x120µl), Wash Buffer(25 x concentrate) (1x30ml), Substrate (1x10ml), Stop Solution (1x10ml) |

## Target Details

|                   |                                                                                                                                          |
|-------------------|------------------------------------------------------------------------------------------------------------------------------------------|
| Target:           | BID                                                                                                                                      |
| Alternative Name: | BID ( <a href="#">BID Products</a> )                                                                                                     |
| Background:       | Synonyms: BH3-interacting domain death agonist,BID,Chicken,Gallus gallus,RCJMB04_7d15                                                    |
| Pathways:         | <a href="#">Apoptosis</a> , <a href="#">Caspase Cascade in Apoptosis</a> , <a href="#">Positive Regulation of Endopeptidase Activity</a> |

## Application Details

|                |                |
|----------------|----------------|
| Comment:       | Gene Name: BID |
| Sample Volume: | 100 µL         |

Application Details

|               |                       |
|---------------|-----------------------|
| Plate:        | Pre-coated            |
| Restrictions: | For Research Use only |

Handling

|                  |                                                                                                                                                                              |
|------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Storage:         | 4 °C/-20 °C                                                                                                                                                                  |
| Storage Comment: | The Standard, Detection Reagent A, Detection Reagent B and the 96-well strip plate should be stored at -20 °C upon being received. The other reagents can be stored at 4 °C. |
