

## Datasheet for ABIN1134804

### GPI ELISA Kit

[Go to Product page](#)

#### Overview

|              |          |
|--------------|----------|
| Quantity:    | 96 tests |
| Target:      | GPI      |
| Reactivity:  | Pig      |
| Application: | ELISA    |

#### Product Details

|                   |                                                                                                                                                                                                                                                                                  |
|-------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Detection Method: | Colorimetric                                                                                                                                                                                                                                                                     |
| Characteristics:  | Sus scrofa,Pig,Glucose-6-phosphate isomerase,GPI,Autocrine motility factor,AMF,Neuroleukin,NLK,Phosphoglucose isomerase,PGI,Phosphohexose isomerase,PHI,GPI,5.3.1.9                                                                                                              |
| Components:       | Reagent (Quantity): Assay plate (1), Standard (2), Sample Diluent (1x20ml), Assay Diluent A (1x10ml), Assay Diluent B (1x10ml), Detection Reagent A (1x120µl), Detection Reagent B (1x120µl), Wash Buffer(25 x concentrate) (1x30ml), Substrate (1x10ml), Stop Solution (1x10ml) |

#### Target Details

|                   |                                                                                                                                                                       |
|-------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Target:           | GPI                                                                                                                                                                   |
| Alternative Name: | GPI ( <a href="#">GPI Products</a> )                                                                                                                                  |
| Target Type:      | Viral Protein                                                                                                                                                         |
| Background:       | Synonyms: AMF,Autocrine motility factor,Glucose-6-phosphate isomerase,GPI,GPI,Neuroleukin,NLK,PGI,PHI,Phosphoglucose isomerase,Phosphohexose isomerase,Pig,Sus scrofa |

Application Details

|                |                       |
|----------------|-----------------------|
| Comment:       | Gene Name: GPI        |
| Sample Volume: | 100 µL                |
| Plate:         | Pre-coated            |
| Restrictions:  | For Research Use only |

Handling

|                  |                                                                                                                                                                              |
|------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Storage:         | 4 °C/-20 °C                                                                                                                                                                  |
| Storage Comment: | The Standard, Detection Reagent A, Detection Reagent B and the 96-well strip plate should be stored at -20 °C upon being received. The other reagents can be stored at 4 °C. |
