

Datasheet for ABIN1136331

**Hemoglobin Subunit beta ELISA Kit**[Go to Product page](#)

## Overview

|              |                               |
|--------------|-------------------------------|
| Quantity:    | 96 tests                      |
| Target:      | Hemoglobin Subunit beta (HBB) |
| Reactivity:  | Pig                           |
| Application: | ELISA                         |

## Product Details

|                   |                                                                                                                                                                                                                                                                                  |
|-------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Detection Method: | Colorimetric                                                                                                                                                                                                                                                                     |
| Characteristics:  | Sus scrofa,Pig,Hemoglobin subunit beta,Beta-globin,Hemoglobin beta chain,HBB                                                                                                                                                                                                     |
| Components:       | Reagent (Quantity): Assay plate (1), Standard (2), Sample Diluent (1x20ml), Assay Diluent A (1x10ml), Assay Diluent B (1x10ml), Detection Reagent A (1x120µl), Detection Reagent B (1x120µl), Wash Buffer(25 x concentrate) (1x30ml), Substrate (1x10ml), Stop Solution (1x10ml) |

## Target Details

|                   |                                                                                        |
|-------------------|----------------------------------------------------------------------------------------|
| Target:           | Hemoglobin Subunit beta (HBB)                                                          |
| Alternative Name: | HBB ( <a href="#">HBB Products</a> )                                                   |
| Target Type:      | Viral Protein                                                                          |
| Background:       | Synonyms: Beta-globin,HBB,Hemoglobin beta chain,Hemoglobin subunit beta,Pig,Sus scrofa |

## Application Details

|                |                |
|----------------|----------------|
| Comment:       | Gene Name: HBB |
| Sample Volume: | 100 µL         |

Application Details

|               |                       |
|---------------|-----------------------|
| Plate:        | Pre-coated            |
| Restrictions: | For Research Use only |

Handling

|                  |                                                                                                                                                                              |
|------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Storage:         | 4 °C/-20 °C                                                                                                                                                                  |
| Storage Comment: | The Standard, Detection Reagent A, Detection Reagent B and the 96-well strip plate should be stored at -20 °C upon being received. The other reagents can be stored at 4 °C. |
