

## Datasheet for ABIN1158829 **SLC2A2 ELISA Kit**

[Go to Product page](#)

### Overview

|              |          |
|--------------|----------|
| Quantity:    | 96 tests |
| Target:      | SLC2A2   |
| Reactivity:  | Cow      |
| Application: | ELISA    |

### Product Details

|                   |                                                                                                                                                                                                                                                                                  |
|-------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Detection Method: | Colorimetric                                                                                                                                                                                                                                                                     |
| Characteristics:  | Bos taurus,Bovine,Solute carrier family 2, facilitated glucose transporter member 2,Glucose transporter type 2, liver,GLUT-2,SLC2A2,GLUT2                                                                                                                                        |
| Components:       | Reagent (Quantity): Assay plate (1), Standard (2), Sample Diluent (1x20ml), Assay Diluent A (1x10ml), Assay Diluent B (1x10ml), Detection Reagent A (1x120µl), Detection Reagent B (1x120µl), Wash Buffer(25 x concentrate) (1x30ml), Substrate (1x10ml), Stop Solution (1x10ml) |

### Target Details

|                   |                                                                                                                                                     |
|-------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------|
| Target:           | SLC2A2                                                                                                                                              |
| Alternative Name: | SLC2A2 ( <a href="#">SLC2A2 Products</a> )                                                                                                          |
| Background:       | Synonyms: Bos taurus,Bovine,Glucose transporter type 2, liver,GLUT2,GLUT-2,SLC2A2,Solute carrier family 2, facilitated glucose transporter member 2 |
| Pathways:         | <a href="#">Warburg Effect</a>                                                                                                                      |

Application Details

|                |                       |
|----------------|-----------------------|
| Comment:       | Gene Name: SLC2A2     |
| Sample Volume: | 100 µL                |
| Plate:         | Pre-coated            |
| Restrictions:  | For Research Use only |

Handling

|                  |                                                                                                                                                                              |
|------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Storage:         | 4 °C/-20 °C                                                                                                                                                                  |
| Storage Comment: | The Standard, Detection Reagent A, Detection Reagent B and the 96-well strip plate should be stored at -20 °C upon being received. The other reagents can be stored at 4 °C. |
