

Datasheet for ABIN1174938

anti-FABP4 antibody (Biotin)

_					
	1//	r	Vİ	\triangle	۸/
	V		VI		/ V

Quantity:	200 μL		
Target:	FABP4		
Reactivity:	Mouse		
Host:	Rabbit		
Clonality:	Polyclonal		
Conjugate:	This FABP4 antibody is conjugated to Biotin		
Application:	Western Blotting (WB), Immunohistochemistry (IHC), Immunocytochemistry (ICC)		
Product Details			
Purpose:	Biotin-Linked Polyclonal Antibody to Fatty Acid Binding Protein 4 (FABP4)		
Immunogen:	PAB693Mu01Polyclonal Antibody to Fatty Acid Binding Protein 4 (FABP4)		
Isotype:	IgG		
Specificity:	The antibody is a rabbit polyclonal antibody raised against FABP4. It has been selected for its ability to recognize FABP4 in immunohistochemical staining and western blotting.		
Purification:	Antigen-specific affinity chromatography followed by Protein A affinity chromatography		
Target Details			
Target:	FABP4		
Alternative Name:	Fatty Acid Binding Protein 4 (FABP4 Products)		
Background:	A-FABP, AFABP, AP2, Fatty Acid Binding Protein 4, Adipocyte, Adipocyte Protein 2, Adipocyte-		

Target Details

<u> </u>		
	type fatty acid-binding protein	
Pathways:	Brown Fat Cell Differentiation	
Application Details		
Application Notes:	Western blotting: 0.5-2 μ g/mL Immunohistochemistry: 5-20 μ g/mL Immunocytochemistry: 5-20 μ g/mL Optimal working dilutions must be determined by end user.	
Comment:	The thermal stability is described by the loss rate. The loss rate was determined by accelerate thermal degradation test, that is, incubate the protein at 37°C for 48h, and no obvious degradation and precipitation were observed. The loss rate is less than 5% within the expiratio date under appropriate storage condition.	
Restrictions:	For Research Use only	
Handling		
Format:	Liquid	
Concentration:	500 μg/mL	
Buffer:	0.01M PBS, pH 7.4, containing 0.05 % Proclin-300, 50 % glycerol.	
Preservative:	ProClin	
Precaution of Use:	WARNING: Reagents contain sodium azide. Sodium azide is very toxic if ingested or inhaled. Avoid contact with skin, eyes, or clothing. Wear eye or face protection when handling. If skin or eye contact occurs, wash with copious amounts of water. If ingested or inhaled, contact a physician immediately. Sodium azide yields toxic hydrazoic acid under acidic conditions. Dilute azide-containing compounds in running water before discarding to avoid accumulation of potentially explosive deposits in lead or copper plumbing.	
Handling Advice:	Avoid repeated freeze/thaw cycles	
Storage:	4 °C,-20 °C	
Storage Comment:	Store at 4°C for frequent use. Stored at -20°C in a manual defrost freezer for two year without detectable loss of activity. Avoid repeated freeze-thaw cycles.	
Expiry Date:	12 months
