

## Datasheet for ABIN1304583 **anti-CACNA1G antibody**

[Go to Product page](#)

### Overview

|              |                                                                         |
|--------------|-------------------------------------------------------------------------|
| Quantity:    | 100 µL                                                                  |
| Target:      | CACNA1G                                                                 |
| Reactivity:  | Mammalian                                                               |
| Host:        | Mouse                                                                   |
| Clonality:   | Monoclonal                                                              |
| Conjugate:   | This CACNA1G antibody is un-conjugated                                  |
| Application: | Western Blotting (WB), Immunohistochemistry (IHC), Immunostaining (ISt) |

### Product Details

|                  |                                                                                                                                                                                                     |
|------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Clone:           | N178A-9                                                                                                                                                                                             |
| Isotype:         | IgG1                                                                                                                                                                                                |
| Characteristics: | Ca <sup>2+</sup> channels                                                                                                                                                                           |
| Purification:    | Purified: Hybridoma in vivo ascites fluid purified by SAS (Saturated Ammonium Sulfate) precipitation followed by anion exchange chromatography. Purified mAbs are >90% specific antibody at 1mg/mL. |

### Target Details

|                   |                                             |
|-------------------|---------------------------------------------|
| Target:           | CACNA1G                                     |
| Alternative Name: | Cav3.1 ( <a href="#">CACNA1G Products</a> ) |
| UniProt:          | <a href="#">Q9WUT2</a>                      |
