## TTLL6 Protein (AA 1-569) (GST tag)

### 1 Image

#### Overview

|                               |                                                                               |
|-------------------------------|-------------------------------------------------------------------------------|
| Quantity:                     | 25 µg                                                                         |
| Target:                       | TTLL6                                                                         |
| Protein Characteristics:      | AA 1-569                                                                      |
| Origin:                       | Human                                                                         |
| Source:                       | Wheat germ                                                                    |
| Protein Type:                 | Recombinant                                                                   |
| Purification tag / Conjugate: | This TTLL6 protein is labelled with GST tag.                                  |
| Application:                  | ELISA, Western Blotting (WB), Antibody Array (AA), Affinity Purification (AP) |

#### Product Details

|                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
|------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Purpose:         | TTLL6 (Human) Recombinant Protein (P01)                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |

| Characteristics: | Human TTLL6 full-length ORF ( NP_775894.1, 1 a.a. - 569 a.a.) recombinant protein with GST-                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |

## Product Details

---

tag at N-terminal.

Purification: in vitro wheat germ expression system

## Target Details

---

Target: TTLL6

Alternative Name: TTLL6 ([TTLL6 Products](#))

Background: Full Gene Name: tubulin tyrosine ligase-like family, member 6  
Synonyms: FLJ35808,TTL.6

Gene ID: 284076

NCBI Accession: [NM\\_173623](#)

## Application Details

---

Application Notes: Optimal working dilution should be determined by the investigator.

Comment: Preparation method: in vitro, wheat germ expression system  
Product Quality tested by: 12.5% SDS-PAGE Stained with Coomassie Blue.

Restrictions: For Research Use only

## Handling

---

Buffer: 50 mM Tris-HCl, 10 mM reduced Glutathione, pH =8.0 in the elution buffer.

Handling Advice: Aliquot to avoid repeated freezing and thawing.

Storage: -80 °C

Storage Comment: Best use within three months from the date of receipt of this protein.
