Datasheet for ABIN1330416  
**PCDHA1 Protein**

### Overview

|               |                            |
|---------------|----------------------------|
| Quantity:     | 10 µg                      |
| Target:       | PCDHA1                     |
| Origin:       | Human                      |
| Source:       | Wheat germ                 |
| Protein Type: | Recombinant                |
| Application:  | Affinity Purification (AP) |

### Product Details

|                  |   |
|------------------|---|
| Purpose:         | PCDHA1 (Human) Recombinant Protein  |

| Characteristics: | Human PCDHA1 full-length ORF (AAI66697.1) recombinant protein without tag.  |

## Product Details

---

This product is belong to Proteoliposome (PL).

Purification: in vitro wheat germ expression system with proprietary liposome technology

## Target Details

---

Target: PCDHA1

Alternative Name: PCDHA1 ([PCDHA1 Products](#))

Background: Gene: protocadherin alpha 1  
Synonyms: PCDH-ALPHA1

Gene ID: 56147

## Application Details

---

Application Notes: Heating may cause protein aggregation. Please do not heat this product before electrophoresis.

Restrictions: For Research Use only

## Handling

---

Format: Liquid

Buffer: 25 mM Tris-HCl of pH 8.0 containing 2 % glycerol.

Handling Advice: Aliquot to avoid repeated freezing and thawing.

Storage: -80 °C

Storage Comment: Best use within three months from the date of receipt of this protein.
