

Datasheet for ABIN1341768

MPL (Human) IP-WB Antibody Pair[Go to Product page](#)**1** Image

Overview

Quantity:	1 set
Target:	MPL
Reactivity:	Human
Host:	Rabbit, Mouse
Application:	Immunoprecipitation (IP)

Product Details

Purpose:	This IP-WB antibody pair set comes with one antibody for immunoprecipitation and another to detect the precipitated protein in western blot.
Cross-Reactivity:	Human
Characteristics:	This IP-WB antibody pair set comes with one antibody for immunoprecipitation and another to detect the precipitated protein in western blot.
Components:	Antibody pair set content: 1. Antibody pair for IP: rabbit polyclonal anti-MPL (300 µL) 2. Antibody pair for WB: mouse purified polyclonal anti-MPL (50 µg)

Target Details

Target:	MPL
Alternative Name:	MPL (MPL Products)
Sub Type:	Cocktail
Background:	Full Gene Name: myeloproliferative leukemia virus oncogene

Target Details

Synonyms: C-MPL,CD110,MPLV,TPOR

Gene ID: 4352

Application Details

Application Notes: Optimal working dilution should be determined by the investigator.

Restrictions: For Research Use only

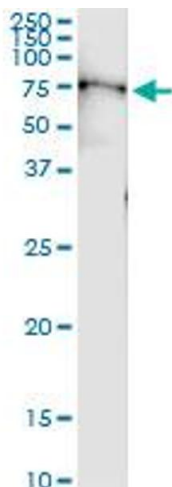

Handling

Handling Advice: Please aliquot to avoid repeated freeze thaw cycle.

Storage: -20 °C

Storage Comment: Store reagents of the antibody pair set at -20°C or lower. Please aliquot to avoid repeated freeze thaw cycle. Reagents should be returned to -20°C storage immediately after use.
