

## Datasheet for ABIN1381723 **anti-Albumin antibody (Biotin)**

[Go to Product page](#)

### Overview

|              |                                               |
|--------------|-----------------------------------------------|
| Quantity:    | 0.5 mg                                        |
| Target:      | Albumin (ALB)                                 |
| Reactivity:  | Dog                                           |
| Host:        | Chicken egg                                   |
| Conjugate:   | This Albumin antibody is conjugated to Biotin |
| Application: | Please inquire                                |

### Product Details

|                  |                                                                                                                                                                                                                                                                                                     |
|------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Characteristics: | Chickens were immunized with highly purified dog IgG isolated from normal dog serum. After multiple immunizations in Freund's adjuvant, eggs were collected and the IgY fraction prepared. The antibodies were immunoaffinity purified from a solid phase immunoabsorbent and conjugated to Biotin. |
| Purification:    | egg yolk-derived purified IgY, affinity purified                                                                                                                                                                                                                                                    |

### Target Details

|                   |                                                |
|-------------------|------------------------------------------------|
| Target:           | Albumin (ALB)                                  |
| Alternative Name: | Serum Albumin ( <a href="#">ALB Products</a> ) |
| Pathways:         | <a href="#">Lipid Metabolism</a>               |

### Application Details

|                    |                                                                                                |
|--------------------|------------------------------------------------------------------------------------------------|
| Application Notes: | Optimal conjugate working dilutions should be determined for your particular assay conditions. |
|--------------------|------------------------------------------------------------------------------------------------|

Application Details

|               |                       |
|---------------|-----------------------|
| Restrictions: | For Research Use only |
|---------------|-----------------------|

Handling

|                    |                                                                                                                                    |
|--------------------|------------------------------------------------------------------------------------------------------------------------------------|
| Format:            | Liquid                                                                                                                             |
| Concentration:     | 1.0 mg/ml                                                                                                                          |
| Buffer:            | Phosphate buffered saline, pH 7.2, 50% Glycerol                                                                                    |
| Preservative:      | Thimerosal (Merthiolate)                                                                                                           |
| Precaution of Use: | This product contains thimerosal (merthiolate): a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
| Handling Advice:   | Do not freeze-thaw often                                                                                                           |
| Storage:           | 4 °C                                                                                                                               |
