Datasheet for ABIN1385669  
**anti-CCDC180 antibody**

### Overview

Quantity:	100 µL
Target:	CCDC180
Reactivity:	Human, Mouse, Rat
Host:	Rabbit
Clonality:	Polyclonal
Conjugate:	This CCDC180 antibody is un-conjugated
Application:	Western Blotting (WB), Immunofluorescence (Paraffin-embedded Sections) (IF (p)), Immunohistochemistry (Paraffin-embedded Sections) (IHC (p))

### Product Details

Immunogen:	KLH conjugated synthetic peptide derived from human C9orf174
Isotype:	IgG
Cross-Reactivity:	Human, Mouse, Rat
Purification:	Purified by Protein A.

### Target Details

Target:	CCDC180
Alternative Name:	C9orf174 ( <a href="#">CCDC180 Products</a> )
Background:	Synonyms: BDAG1, Behcet's Disease Associated Gene 1, C9orf174, DKFZp434I2420, DKFZp686B2031, DKFZp686G1725, FLJ41397, FLJ50036, Hypothetical protein LOC100499483, KIAA1529, Uncharacterized protein C9orf174, C1174_HUMAN.

## Target Details

---

Background: Chromosome 9 consists of about 145 million bases and 4 % of the human genome and encodes nearly 900 genes. Considered to play a role in gender determination, deletion of the distal portion of 9p can lead to development of male to female sex reversal, the phenotype of a female with a male X,Y genotype. Hereditary hemorrhagic telangiectasia, which is characterized by harmful vascular defects, is associated with the chromosome 9 gene encoding endoglin protein, ENG. Familial dysautonomia is also associated with chromosome 9 though through the gene IKBKAP. Notably, chromosome 9 encompasses the largest interferon family gene cluster. Chromosome 9 is partnered with chromosome 22 in the translocation leading to the aberrant production of BCR-ABL fusion protein often found in leukemias. The KIAA1529 gene product has been provisionally designated KIAA1529 pending further characterization.

## Application Details

---

Application Notes:           WB 1:300-5000  
                                      IHC-P 1:200-400  
                                      IF(IHC-P) 1:50-200

Restrictions:                 For Research Use only

## Handling

---

Format:                        Liquid

Concentration:               1 µg/µL

Buffer:                        0.01M TBS( pH 7.4) with 1 % BSA, 0.02 % Proclin300 and 50 % Glycerol.

Preservative:                ProClin

Precaution of Use:         This product contains ProClin: a POISONOUS AND HAZARDOUS SUBSTANCE, which should be handled by trained staff only.

Storage:                      4 °C,-20 °C

Storage Comment:         Shipped at 4°C. Store at -20°C for one year. Avoid repeated freeze/thaw cycles.

Expiry Date:                 12 months
