# anti-PPP2R5D antibody (AA 501-602)

#### Overview

| Quantity:            | 100 μL  |
|----------------------|---|
| Target:              | PPP2R5D   |
| Binding Specificity: | AA 501-602  |
| Reactivity:          | Mouse, Rat  |
| Host:                | Rabbit  |
| Clonality:           | Polyclonal  |
| Conjugate:           | This PPP2R5D antibody is un-conjugated  |
| Application:         | Western Blotting (WB), ELISA, Immunofluorescence (Cultured Cells) (IF (cc)), Immunofluorescence (Paraffin-embedded Sections) (IF (p)), Immunohistochemistry (Paraffin-embedded Sections) (IHC (p)), Immunocytochemistry (ICC), Immunohistochemistry (Frozen Sections) (IHC (fro)) |

#### **Product Details**

| Immunogen:            | KLH conjugated synthetic peptide derived from human PPP2R5D |
|-----------------------|---|
| Isotype:              | IgG   |
| Cross-Reactivity:     | Mouse, Rat  |
| Predicted Reactivity: | Human   |
| Purification:         | Purified by Protein A.                                      |

## Target Details

| Target: | PPP2R5D |  |  |

## **Target Details**

| - Target Details    |   |
|---------------------|---|
| Alternative Name:   | PPP2R5D (PPP2R5D Products)  |
| Background:         | Synonyms: B'delta, Delta isoform of regulatory subunit B56, protein phosphatase 2A, MGC2134     |
|                     | MGC8949, OTTHUMP00000039821, PP2A B subunit B' delta isoform, PP2A B subunit B56 delt           |
|                     | isoform, PP2A B subunit PR61 delta isoform, PP2A B subunit R5 delta isoform, Protein            |
|                     | phosphatase 2 regulatory subunit B B56 delta isoform, Protein phosphatase 2 regulatory          |
|                     | subunit B delta isoform, Serine threonine protein phosphatase 2A 56 kDa regulatory subunit      |
|                     | delta isoform, TEG-271, Tex271, 2A5D_HUMAN.   |
|                     | Background: In eukaryotes, the phosphorylation and dephosphorylation of proteins on serine      |
|                     | and threonine residues is an essential means of regulating a broad range of cellular functions, |
|                     | including division, homeostasis and apoptosis. A group of proteins that are intimately involved |
|                     | in this process are the protein phosphatases. In general, the protein phosphatase (PP)          |
|                     | holoenzyme is a trimeric complex composed of a regulatory subunit, a variable subunit, and a    |
|                     | catalytic subunit. Four major families of protein phosphatase catalytic subunits have been      |
|                     | identified, designated PP1, PP2A, PP2B (calcineurin) and PP2C. An additional protein            |
|                     | phosphatase catalytic subunit, PPX (also known as PP4) is a putative member of a novel PP       |
|                     | family. The PP2A family comprises subfamily members PP2A Alpha and PP2A Beta. The PP2A          |
|                     | catalytic subunit associates with a variety of regulatory subunits. Regulatory subunits include |
|                     | PP2A-A-Alpha and -A-Beta, PP2A-B-Alpha and -B-Beta, PP2A-C-Alpha and -C-Beta, PP2A-B56-         |
|                     | Alpha, -B56-Beta, -B56-gamma and -B56-Delta.  |
| Pathways:           | PI3K-Akt Signaling, Activation of Innate immune Response, Toll-Like Receptors Cascades          |
| Application Details |   |
| Application Notes:  | WB 1:300-5000   |
|                     | ELISA 1:500-1000  |
|                     | IHC-P 1:200-400   |
|                     | IHC-F 1:100-500   |
|                     | IF(IHC-P) 1:50-200  |
|                     | IF(IHC-F) 1:50-200  |
|                     | IF(ICC) 1:50-200  |
|                     | ICC 1:100-500   |
| Restrictions:       | For Research Use only   |
| Handling            |   |
| Format:             | Liquid  |
|                     |   |

# Handling

| Concentration:     | 1 μg/μL  |
|--------------------|--|
| Buffer:            | 0.01M TBS( pH 7.4) with 1 % BSA, 0.02 % Proclin300 and 50 % Glycerol.  |
| Preservative:      | ProClin  |
| Precaution of Use: | This product contains ProClin: a POISONOUS AND HAZARDOUS SUBSTANCE, which should be handled by trained staff only. |
| Storage:           | 4 °C,-20 °C  |
| Storage Comment:   | Shipped at 4°C. Store at -20°C for one year. Avoid repeated freeze/thaw cycles.                                    |
| Expiry Date:       | 12 months  |
