Datasheet for ABIN1388917 anti-Bestrophin antibody (Biotin)

Overview

Quantity:	100 µL
Target:	Bestrophin (LOC100368263)
Reactivity:	Human, Mouse, Rat
Host:	Rabbit
Clonality:	Polyclonal
Conjugate:	This Bestrophin antibody is conjugated to Biotin
Application:	ELISA, Immunohistochemistry (Frozen Sections) (IHC (fro)), Immunohistochemistry (Paraffin- embedded Sections) (IHC (p))

Product Details

Immunogen:	KLH conjugated synthetic peptide derived from human Bestrophin
lsotype:	lgG
Cross-Reactivity:	Human
Predicted Reactivity:	Mouse,Rat,Dog,Cow,Pig,Horse,Rabbit
Purification:	Purified by Protein A.
Target Details	
Target:	Bestrophin (LOC100368263)
Alternative Name:	Bestrophin (LOC100368263 Products)

Background: Synonyms: BEST 1, BEST1, BEST-1, BEST, Best macular dystrophy, BEST1, BEST1_HUMAN,

	Bestrophin 1, Bestrophin-1, Bestrophin1, BMD, mBest1, TU15B, Vitellorm macular dystrophy 2,
	Vitellorm macular dystrophy, Vitellorm macular dystrophy protein 2, VMD 2, VMD2.
	Background: Best vitelliform macular dystrophy, known as Best disease, is an early-onset
	autosomal dominant condition in which accumulation of lipofuscin-like material within and
	beneath the RPE leads to progressive loss of central vision. Best disease is frequently a
	reflection of mutations in the Bestrophin gene, which encodes a protein containing four putative
	transmembrane domains and localizes to the basolateral plasma membrane of RPE cells.
	Human Bestrophin forms oligomeric chloride channels that are sensitive to intracellular
	calcium. Missense mutations at the Bestrophin locus reduces or abolishes Bestrophin protein
	mediated membrane current. Bestrophin Bestrophin 2,Bestrophin 3, and Bestrophin 4 are
	transmembrane proteins that contain a high percentage of aromatic residues, a conserved RFP
	(Arg-Phe-Pro) motif and they function as anion channels.
Gene ID:	5068
Application Details	
Application Notes:	WB 1:100-1000
	IHC-P 1:100-500
Restrictions:	For Research Use only
Handling	
Format:	Liquid
Concentration:	1 µg/µL
Buffer:	Aqueous buffered solution containing 0.01M TBS (pH 7.4) with 1 % BSA, 0.03 % Proclin300 and 50 % Glycerol.
Preservative:	Sodium azide
Precaution of Use:	This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE, which should be handled by trained staff only.
