antibodies

## Datasheet for ABIN1392161 anti-DISP2 antibody (AA 1101-1200) (Alexa Fluor 555)

Overview

| Quantity:            | 100 µL  |
|----------------------|---|
| Target:              | DISP2   |
| Binding Specificity: | AA 1101-1200  |
| Reactivity:          | Human   |
| Host:                | Rabbit  |
| Clonality:           | Polyclonal  |
| Conjugate:           | This DISP2 antibody is conjugated to Alexa Fluor 555  |
| Application:         | Immunofluorescence (Cultured Cells) (IF (cc)), Immunofluorescence (Paraffin-embedded Sections) (IF (p)) |

## Product Details

| Immunogen:            | KLH conjugated synthetic peptide derived from human DISP2 |
|-----------------------|---|
| Isotype:              | IgG   |
| Predicted Reactivity: | Human,Mouse,Rat,Dog,Cow,Pig,Horse                         |
| Purification:         | Purified by Protein A.                                    |

## Target Details

| Target:           | DISP2  |
|-------------------|--|
| Alternative Name: | DISP2 (DISP2 Products)   |
| Background:       | Synonyms: DISPB, HsT16908, Protein dispatched homolog 2, DISP2, KIAA1742 |

|                     | Background: DISP2 is the second of three known homologs of the D.melanogaster protein                              |
|---------------------|--|
|                     | Dispatched. It is a multitransmembrane protein containing two PTCH/DISP domains and is                             |
|                     | thought to be involved in the release of lipid-anchored Hedgehog from producing cells.                             |
|                     | Hedgehog is a major player in signaling pathways during embryogenesis, tissue regeneration,                        |
|                     | and carcinogenesis and the DISP proteins have been implicated in these pathways. Recently, it                      |
|                     | has been shown that DISP2 is translationally regulated by the microRNA miR-214 in zebrafish.                       |
|                     | Expression of this miRNA decreased DISP2 promoter activity in vitro and its overexpression in                      |
|                     | zebrafish resulted in a phenotype identical to that observed by DISP2 mutants. At least two                        |
|                     | isoforms of DISP2 are known to exist.  |
| Gene ID:            | 85455  |
| UniProt:            | A7MBM2   |
| Pathways:           | Hedgehog Signaling   |
| Application Details |  |
| Application Notes:  | IF(IHC-P) 1:50-200   |
|                     | IF(IHC-F) 1:50-200   |
|                     | IF(ICC) 1:50-200   |
| Restrictions:       | For Research Use only  |
| Handling            |  |
| Format:             | Liquid   |
| Concentration:      | 1 μg/μL  |
| Buffer:             | Aqueous buffered solution containing 0.01M TBS ( pH 7.4) with 1 % BSA, 0.03 % Proclin300 and                       |
|                     | 50 % Glycerol.   |
| Preservative:       | ProClin  |
| Precaution of Use:  | This product contains ProClin: a POISONOUS AND HAZARDOUS SUBSTANCE, which should be handled by trained staff only. |
| Storage:            | -20 °C   |
| Storage Comment:    | Store at -20°C. Aliquot into multiple vials to avoid repeated freeze-thaw cycles.                                  |
| Expiry Date:        | 12 months  |
|                     |  |
