Target Details

Target:	ITM2C
Alternative Name:	ITM2C (ITM2C Products)
Background:	Synonyms: BRI3, BRICD2C, BRICHOS domain containing 2C, Cerebral protein 14, CT-BRI3, E25,

Target Details

E25C , Integral membrane protein 2C, Integral membrane protein 3, Itm2c, ITM2C_HUMAN, ITM3 antibodyNPD018, Transmembrane protein BRI3.

Background: Negative regulator of beta amyloid peptide production. May inhibit the processing of APP by blocking its access to alpha-and beta-secretase. Binding to the beta-secretase-cleaved APP C-terminal fragment is negligible, suggesting that ITM2C is a poor gamma-secretase cleavage inhibitor. May play a role in TNF-induced cell death and neuronal differentiation.
