Datasheet for ABIN1398025 anti-CUEDC1 antibody (AA 251-350) (Biotin)

antibodies .-online.com

Overview

| Quantity:            | 100 µL   |
|----------------------|--|
| Target:              | CUEDC1   |
| Binding Specificity: | AA 251-350   |
| Reactivity:          | Human  |
| Host:                | Rabbit   |
| Clonality:           | Polyclonal   |
| Conjugate:           | This CUEDC1 antibody is conjugated to Biotin   |
| Application:         | Western Blotting (WB), ELISA, Immunohistochemistry (Paraffin-embedded Sections) (IHC (p)),<br>Immunohistochemistry (Frozen Sections) (IHC (fro)) |

## Product Details

| Immunogen:            | KLH conjugated synthetic peptide derived from human CUEDC1 |
|-----------------------|--|
| Isotype:              | IgG  |
| Predicted Reactivity: | Human,Mouse,Rat,Dog,Cow,Sheep,Horse,Zebrafish              |
| Purification:         | Purified by Protein A.                                     |

## Target Details

| Target:           | CUEDC1  |
|-------------------|---|
| Alternative Name: | CUEDC1 (CUEDC1 Products)                                |
| Background:       | Synonyms: CUE domain containing protein 1, CUED1_HUMAN. |

|                     | Background: The coupling of ubiquitin conjugation to endoplasmic reticulum (ER) degradation                 |
|---------------------|---|
|                     | (CUE) domain functions as a ubiquitin (UB) binding domain that is approximately 40 amino                    |
|                     | acids in length. Present in eukaryotic proteins that are involved in ubiquitination and protein             |
|                     | trafficking pathways, CUE domains can bind monoubiquitin and may be required for                            |
|                     | ubiquitination of the proteins in which they are found. CUEDC1 (CUE domain-containing protein               |
|                     | 1) is a 386 amino acid protein that contains one CUE domain, suggesting a possible role in                  |
|                     | protein trafficking and degradation pathways. Defects in the gene encoding CUEDC1 may be                    |
|                     | associated with early stage cervical cancer, implicating CUEDC1 as a potential tumor marker.                |
|                     | Two isoforms of CUEDC1 exist due to alternative splicing events.  |
| Gene ID:            | 404093  |
| Application Details |   |
| Application Notes:  | WB 1:300-5000   |
|                     | IHC-P 1:200-400   |
|                     | IHC-F 1:100-500   |
| Restrictions:       | For Research Use only   |
| Handling            |   |
| Format:             | Liquid  |
| Concentration:      | 1 µg/µL   |
| Buffer:             | Aqueous buffered solution containing 0.01M TBS ( pH 7.4) with 1 % BSA, 0.03 % Proclin300 and 50 % Glycerol. |
| Preservative:       | ProClin   |
| Precaution of Use:  | This product contains ProClin: a POISONOUS AND HAZARDOUS SUBSTANCE, which should be                         |
|                     | handled by trained staff only.  |
| Storage:            | -20 °C  |
| Storage Comment:    | Store at -20°C for 12 months.   |
| Expiry Date:        | 12 months   |
|                     |   |
