antibodies

## Datasheet for ABIN1401426 anti-IGSF11 antibody (Alexa Fluor 647)

Overview	
Quantity:	100 µL
Target:	IGSF11
Reactivity:	Human, Mouse, Rat
Host:	Rabbit
Clonality:	Polyclonal
Conjugate:	This IGSF11 antibody is conjugated to Alexa Fluor 647
Application:	Western Blotting (WB), Immunofluorescence (Paraffin-embedded Sections) (IF (p))
Product Details	
Immunogen:	KLH conjugated synthetic peptide derived from human IGSF11
Immunogen: Isotype:	KLH conjugated synthetic peptide derived from human IGSF11 IgG
Isotype:	lgG
Isotype: Cross-Reactivity:	lgG Human, Mouse, Rat
Isotype: Cross-Reactivity: Purification:	lgG Human, Mouse, Rat
Isotype: Cross-Reactivity: Purification: Target Details	IgG Human, Mouse, Rat Purified by Protein A.

immunoglobulin domain containing protein 3, VSIG3, IGS11\_HUMAN.

	Background: IGSF11 is also known as BTIGSF (brain and testis-specific immunoglobulin
	superfamily protein) or VSIG3 (V-set and immunoglobulin domain-containing protein 3) and is a
	431 amino acid protein that is expressed as three isoforms. IGSF11 is highly expressed in testis
	and ovary and is also expressed in brain, kidney and skeletal muscle, localized to the cellular
	membrane as a single-pass membrane protein. IGSF11 is an immunoglobulin with V-type and
	C2-type domains that function in molecular recognition. When IGSF11 is in the trans position, it
	plays an important role in cell-cell adhesion via both homophilic and heterophilic interactions
	with other molecules. These cellcell interactions are also thought to be important for neuronal cell interactions, such as neuronneuron or neuronglia interactions, which are important for the development and function of the central nervous system. In addition, IGSF11 might also be involved interactions between Sertoli cells and spermatocytes, which are important
	associations during spermatogenesis. The IGSF11 gene is commonly upregulated in gastric
	cancer and IGSF11 is highly expressed in many types of human tumors, indicating that it may
	be useful as a target for immunotherapy.
Gene ID:	152404
