## anti-CST4 antibody (Alexa Fluor 488)

| Overview        |   |
|-----------------|---|
| Quantity:       | 100 μL  |
| Target:         | CST4  |
| Reactivity:     | Human   |
| Host:           | Rabbit  |
| Clonality:      | Polyclonal  |
| Conjugate:      | This CST4 antibody is conjugated to Alexa Fluor 488                             |
| Application:    | Western Blotting (WB), Immunofluorescence (Paraffin-embedded Sections) (IF (p)) |
| Product Details |   |
| Immunogen:      | KLH conjugated synthetic peptide derived from human Cystatin S                  |

| Immunogen:        | KLH conjugated synthetic peptide derived from human Cystatin S |
|-------------------|--|
| Isotype:          | IgG  |
| Cross-Reactivity: | Human  |
| Purification:     | Purified by Protein A.   |

#### **Target Details**

| Target:           | CST4   |  |
|-------------------|--|--|
| Alternative Name: | Cystatin S (CST4 Products)   |  |
| Background:       | Synonyms: Cst4, Cystatin 4, Cystatin S precursor, Cystatin SA III, Cystatin-4, Cystatin-S,     |  |
|                   | Cystatin-SA-III, CYTS_HUMAN, MGC71923, Salivary acidic protein 1.                              |  |
|                   | Background: The cystatin superfamily encompasses proteins that contain multiple cystatin-like  |  |
|                   | sequences. Some of the members are active cysteine protease inhibitors, while others have lost |  |

#### **Target Details**

or perhaps never acquired this inhibitory activity. There are three inhibitory families in the superfamily, including the type 1 cystatins(stefins), type 2 cystatins and the kininogens. The type 2 cystatin proteins are a class of cysteine proteinase inhibitors found in a variety of human fluids and secretions. The cystatin locus on chromosome 20 contains the majority of the type 2 cystatin genes and pseudogenes. This gene is located in the cystatin locus and encodes a type 2 salivary cysteine peptidase inhibitor. The protein is an S-type cystatin, based on its high level of expression in saliva, tears and seminal plasma. The specific role in these fluids is unclear but antibacterial and antiviral activity is present, consistent with a protective function. [provided by RefSeq, Jul2008].

Gene ID:

1472

#### **Application Details**

| Application Notes: | IF(IHC-P) 1:50-200   |
|--------------------|--|
| Restrictions:      | For Research Use only  |
| Handling           |  |
| Format:            | Liquid   |
| Concentration:     | 1 μg/μL  |
| Buffer:            | Aqueous buffered solution containing 0.01M TBS (pH 7.4) with 1 % BSA, 0.03 % Proclin300 and 50 % Glycerol.         |
| Preservative:      | ProClin  |
| Precaution of Use: | This product contains ProClin: a POISONOUS AND HAZARDOUS SUBSTANCE, which should be handled by trained staff only. |
| Storage:           | -20 °C   |
| Storage Comment:   | Store at -20°C. Aliquot into multiple vials to avoid repeated freeze-thaw cycles.                                  |
| Expiry Date:       | 12 months  |
