Quantity:	100 μL
Target:	PROZ
Reactivity:	Human
Host:	Rabbit
Clonality:	Polyclonal
Conjugate:	This PROZ antibody is conjugated to Alexa Fluor 488
Application:	Western Blotting (WB), Immunofluorescence (Paraffin-embedded Sections) (IF (p))

Product Details

Immunogen:	KLH conjugated synthetic peptide derived from human Protein Z
Isotype:	IgG
Cross-Reactivity:	Human
Purification:	Purified by Protein A.

Target Details

Target:	PROZ
Alternative Name:	Protein Z (PROZ Products)
Background:	Synonyms: Protein Z, vitamin K dependent plasma glycoprotein, PROZ, PROZ_HUMAN, PZ antibody Vitamin K-dependent protein Z.
	Background: This gene encodes a liver vitamin K-dependent glycoprotein that is synthesized in
	the liver and secreted into the plasma. The encoded protein plays a role in regulating blood

Target Details

coagulation by complexing with protein Z-dependent protease inhibitor to directly inhibit activated factor X at the phospholipid surface. Deficiencies in this protein are associated with an increased risk of ischemic arterial diseases and fetal loss. Mutations in this gene are the cause of protein Z deficiency. Alternate splicing results in multiple transcript variants. [provided by RefSeq, Jan 2012].

Gene ID:

8858

 $1 \mu g/\mu L$

Application Details

Concentration:

Application Notes:	IF(IHC-P) 1:50-200
Restrictions:	For Research Use only
Handling	
Format:	Liquid

Buffer:	Aqueous buffered solution containing 0.01M TBS (pH 7.4) with 1 $\%$ BSA, 0.03 $\%$ Proclin300 and
	50 % Glycerol.

	50 % Glycerol.
Preservative:	ProClin
Precaution of Use:	This product contains ProClin: a POISONOUS AND HAZARDOUS SUBSTANCE, which should be handled by trained staff only.
Storage:	-20 °C
Storage Comment:	Store at -20°C. Aliquot into multiple vials to avoid repeated freeze-thaw cycles.

Expiry Date: 12 months
