| Quantity:            | 100 µL                                                                                                                         |
|----------------------|--------------------------------------------------------------------------------------------------------------------------------|
| Target:              | TOR1B                                                                                                                          |
| Binding Specificity: | AA 281-336                                                                                                                     |
| Reactivity:          | Mouse                                                                                                                          |
| Host:                | Rabbit                                                                                                                         |
| Clonality:           | Polyclonal                                                                                                                     |
| Conjugate:           | This TOR1B antibody is conjugated to Cy3                                                                                       |
| Application:         | Western Blotting (WB), Immunofluorescence (Cultured Cells) (IF (cc)), Immunofluorescence (Paraffin-embedded Sections) (IF (p)) |

## Product Details

| Immunogen:            | KLH conjugated synthetic peptide derived from human Torsin B |
|-----------------------|--------------------------------------------------------------|
| lsotype:              | lgG                                                          |
| Cross-Reactivity:     | Mouse                                                        |
| Predicted Reactivity: | Human,Rat,Dog,Cow,Sheep,Horse                                |
| Purification:         | Purified by Protein A.                                       |
| Target Details        |                                                              |
| Target:               | TOR1B                                                        |
| Abstract:             | TOR1B Products                                               |

## Target Details

## Background:

Synonyms: DQ1, Tor1b, Torsin 1B, TOR1B, FKSG18, Torsin family 1 member B, TOR1B\_HUMAN. Background: TorsinB is a 336 amino acid protein that localizes to the lumen of endoplasmic reticulum and belongs to the Torsin family. Expressed in a variety of tissues with particularly high levels in adult brain, TorsinB is thought to function as a molecular chaperone that assists in the conformational folding of membrane and secreted proteins. Via its ability to regulate protein folding, TorsinB plays a key role in postnatal developmental events and is essential for proper neurological development. TorsinB contains two PKC (protein kinase C) phosphorylations sites, one ATP binding domain and several conserved cysteines and shares 69 % amino acid identity with TorsinA, a related family member. Defects in the gene encoding TorsinB are associated with torsion dystonia, an autosomal dominant neurological disorder that is characterized by debilitating muscle contractions throughout the body.

## **Application Details**

| Application Notes: | IF(IHC-P) 1:50-200                                                                           |
|--------------------|----------------------------------------------------------------------------------------------|
|                    | IF(IHC-F) 1:50-200                                                                           |
|                    | IF(ICC) 1:50-200                                                                             |
| Restrictions:      | For Research Use only                                                                        |
| Handling           |                                                                                              |
| Format:            | Liquid                                                                                       |
| Concentration:     | 1 μg/μL                                                                                      |
| Buffer:            | Aqueous buffered solution containing 0.01M TBS ( pH 7.4) with 1 % BSA, 0.03 % Proclin300 and |
|                    | 50 % Glycerol.                                                                               |
| Preservative:      | ProClin                                                                                      |
| Precaution of Use: | This product contains ProClin: a POISONOUS AND HAZARDOUS SUBSTANCE, which should be          |
|                    | handled by trained staff only.                                                               |
| Storage:           | -20 °C                                                                                       |
| Storage Comment:   | Store at -20°C. Aliquot into multiple vials to avoid repeated freeze-thaw cycles.            |
| Expiry Date:       | 12 months                                                                                    |
