Alternative Name:

Quantity:	100 μL
Target:	OSTM1
Binding Specificity:	AA 21-120
Reactivity:	Human, Rat, Mouse
Host:	Rabbit
Clonality:	Polyclonal
Conjugate:	This OSTM1 antibody is conjugated to Cy7
Application:	Western Blotting (WB), Flow Cytometry (FACS), Immunofluorescence (Cultured Cells) (IF (cc)),
	Immunofluorescence (Paraffin-embedded Sections) (IF (p))
Product Details	
Immunogen:	KLH conjugated synthetic peptide derived from human OSTM1
Isotype:	IgG
Cross-Reactivity:	Human, Mouse, Rat
Predicted Reactivity:	Pig
Purification:	Purified by Protein A.
Target Details	
Target:	OSTM1

OSTM1 (OSTM1 Products)

Target Details

Background:	Synonyms: GL, GIPN, OPTB5, HSPC019, Osteopetrosis-associated transmembrane protein 1,				
	Chloride channel 7 beta subunit, OSTM1, UNQ6098/PRO21201				
	Background: OSTM1 (osteopetrosis associated transmembrane protein 1), also known as gl				
	(gray-lethal) or HSPC019, is a 338 amino acid single-pass type I membrane protein that is				
	expressed primarily in osteoclasts and melanocytes as well as brain, kidney and spleen. Bone				
	autosomal recessive osteopetrosis (ARO) is the most severe form of hereditary bone disease				
	whose cellular basis is in the osteoclast and is characterized by abnormally dense bone, due to				
	defective resorption of immature bone. ARO is suggested to be caused by mutations in the				
	OSTM1 gene. The disorder occurs in two forms: a severe autosomal recessive form occurring				
	in utero, infancy, or childhood, and a benign autosomal dominant form occurring in				
	adolescence or adulthood. Defects in the OSTM1 gene are also the cause of the spontaneous				
	gl mutant, which is responsible for a coat color defect in mice.				
Gene ID:	28962				
UniProt:	Q86WC4				
Application Details					
Application Notes:	FCM 1:20-100				
	IF(IHC-P) 1:50-200				
	IF(IHC-F) 1:50-200				
	IF(ICC) 1:50-200				
Restrictions:	For Research Use only				
Handling					
Format:	Liquid				
Concentration:	1 μg/μL				
Buffer:	Aqueous buffered solution containing 0.01M TBS (pH 7.4) with 1 % BSA, 0.03 % Proclin300 ar 50 % Glycerol.				
Preservative:	ProClin				
Precaution of Use:	This product contains ProClin: a POISONOUS AND HAZARDOUS SUBSTANCE, which should be handled by trained staff only.				
Storage:	-20 °C				
Storage Comment:	Store at -20°C. Aliquot into multiple vials to avoid repeated freeze-thaw cycles.
