| Quantity:         | 100 μL                                                                                                                                                                                                                         |  |
|-------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|
| Target:           | EDRF1 (C10orf137)                                                                                                                                                                                                              |  |
| Reactivity:       | Human, Mouse, Rat                                                                                                                                                                                                              |  |
| Host:             | Rabbit                                                                                                                                                                                                                         |  |
| Clonality:        | Polyclonal                                                                                                                                                                                                                     |  |
| Conjugate:        | This EDRF1 antibody is conjugated to Cy3                                                                                                                                                                                       |  |
| Application:      | Western Blotting (WB), Immunofluorescence (Paraffin-embedded Sections) (IF (p))                                                                                                                                                |  |
| Product Details   |                                                                                                                                                                                                                                |  |
| Immunogen:        | KLH conjugated synthetic peptide derived from human EDRF1/C10orf137                                                                                                                                                            |  |
| Isotype:          | IgG                                                                                                                                                                                                                            |  |
| Cross-Reactivity: | Human, Mouse, Rat                                                                                                                                                                                                              |  |
| Purification:     | Purified by Protein A.                                                                                                                                                                                                         |  |
| Target Details    |                                                                                                                                                                                                                                |  |
| Target:           | EDRF1 (C10orf137)                                                                                                                                                                                                              |  |
| Alternative Name: | EDRF1 (C10orf137 Products)                                                                                                                                                                                                     |  |
| Background:       | Synonyms: C10orf137 protein, Chromosome 10 open reading frame 137, EDRF1, Erythroid dferentiation related factor 1, EDRF1_HUMAN.  Background: The tetratricopeptide repeat (TPR) motif is a degenerate, 34 amino acid sequence |  |

found in many proteins and acts to mediate protein-protein interactions in various pathways. At

#### **Target Details**

the sequence level, there can be up to 16 tandem TPR repeats, each of which has a helix-turn-helix shape that stacks on other TPR repeats to achieve ligand binding specificity. EDRF1 (erythroid differentiation-related factor 1), also known as C10orf137 (chromosome 10 open reading frame 137), is a 1,238 amino acid protein containing two TPR repeats. Localizing to nucleus, EDRF1 is involved in transcriptional activation of globin genes by regulating DNA-binding activity of GATA-1 transcription factor. EDRF1 may also play an important role in organ development and histological differentiation. EDRF1 exists as four alternatively spliced isoforms and is encoded by a gene mapping to human chromosome 10q26.13.

Gene ID:

26098

## **Application Details**

| Application Notes: | IF(IHC-P) 1:50-200                                                                                                 |  |
|--------------------|--------------------------------------------------------------------------------------------------------------------|--|
| Restrictions:      | For Research Use only                                                                                              |  |
| Handling           |                                                                                                                    |  |
| Format:            | Liquid                                                                                                             |  |
| Concentration:     | 1 μg/μL                                                                                                            |  |
| Buffer:            | Aqueous buffered solution containing 0.01M TBS (pH 7.4) with 1 % BSA, 0.03 % Proclin300 and 50 % Glycerol.         |  |
| Preservative:      | ProClin                                                                                                            |  |
| Precaution of Use: | This product contains ProClin: a POISONOUS AND HAZARDOUS SUBSTANCE, which should be handled by trained staff only. |  |
| Storage:           | -20 °C                                                                                                             |  |
| Storage Comment:   | Store at -20°C. Aliquot into multiple vials to avoid repeated freeze-thaw cycles.                                  |  |
| Expiry Date:       | 12 months                                                                                                          |  |
