

## Datasheet for ABIN1435212 **anti-RNF150 antibody (PE)**

[Go to Product page](#)

### Overview

|              |                                          |
|--------------|------------------------------------------|
| Quantity:    | 100 µL                                   |
| Target:      | RNF150                                   |
| Reactivity:  | Human, Mouse, Rat                        |
| Host:        | Rabbit                                   |
| Clonality:   | Polyclonal                               |
| Conjugate:   | This RNF150 antibody is conjugated to PE |
| Application: | Western Blotting (WB)                    |

### Product Details

|                   |                                                            |
|-------------------|------------------------------------------------------------|
| Immunogen:        | KLH conjugated synthetic peptide derived from human RNF150 |
| Isotype:          | IgG                                                        |
| Cross-Reactivity: | Human, Mouse, Rat                                          |
| Purification:     | Purified by Protein A.                                     |

### Target Details

|                   |                                                                                                                                                                                                                                                                                  |
|-------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Target:           | RNF150                                                                                                                                                                                                                                                                           |
| Alternative Name: | RNF150 ( <a href="#">RNF150 Products</a> )                                                                                                                                                                                                                                       |
| Background:       | <p>Synonyms: KIAA1214, MGC125502, Ring finger protein 150, RNF 150, RN150_HUMAN.</p> <p>Background: RNF150 contains a RING-type zinc finger, a motif known to be involved in protein-protein and protein-DNA interactions. The specific function of this protein is unknown.</p> |

### Target Details

|                   |       |
|-------------------|-------|
| Molecular Weight: | 44kDa |
| Gene ID:          | 57484 |

### Application Details

|               |                       |
|---------------|-----------------------|
| Restrictions: | For Research Use only |
|---------------|-----------------------|

### Handling

|                    |                                                                                                                        |
|--------------------|------------------------------------------------------------------------------------------------------------------------|
| Format:            | Liquid                                                                                                                 |
| Concentration:     | 1 µg/µL                                                                                                                |
| Buffer:            | Aqueous buffered solution containing 0.01M TBS ( pH 7.4) with 1 % BSA, 0.03 % Proclin300 and 50 % Glycerol.            |
| Preservative:      | Sodium azide                                                                                                           |
| Precaution of Use: | This product contains sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
| Storage:           | -20 °C                                                                                                                 |
| Storage Comment:   | Store at -20°C. Aliquot into multiple vials to avoid repeated freeze-thaw cycles.                                      |
| Expiry Date:       | 12 months                                                                                                              |
