

Datasheet for ABIN1453878  
**anti-RUNX3 antibody (AA 133-182)**

[Go to Product page](#)

## Overview

|                      |                              |
|----------------------|------------------------------|
| Quantity:            | 100 µL                       |
| Target:              | RUNX3                        |
| Binding Specificity: | AA 133-182                   |
| Reactivity:          | Human, Mouse                 |
| Host:                | Rabbit                       |
| Clonality:           | Polyclonal                   |
| Application:         | Western Blotting (WB), ELISA |

## Product Details

|               |                                                                                             |
|---------------|---------------------------------------------------------------------------------------------|
| Immunogen:    | The antiserum was produced against synthesized peptide derived from human RUNX3.            |
| Isotype:      | IgG                                                                                         |
| Specificity:  | RUNX3 antibody detects endogenous levels of RUNX3.                                          |
| Purification: | The antibody was purified from rabbit antiserum by affinity-chromatography using immunogen. |

## Target Details

|                   |                                                                                                                                                                                                                                                                                                      |
|-------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Target:           | RUNX3                                                                                                                                                                                                                                                                                                |
| Alternative Name: | RUNX3 ( <a href="#">RUNX3 Products</a> )                                                                                                                                                                                                                                                             |
| Background:       | Synonyms: acute myeloid leukemia 2 protein, AML2, CBF-alpha 3, CBFA3, core-binding factor, alpha 3, oncogene AML-2, PEA2-alpha C, PEBP2-alpha C, PEBP2A3, polyomavirus enhancer binding protein 2 alpha C subunit, runt-related transcription factor 3, SL3-3 enhancer fa<br>NCBI Gene Symbol: RUNX3 |

### Target Details

|                   |                        |
|-------------------|------------------------|
| Molecular Weight: | 44 kDa                 |
| Gene ID:          | 864                    |
| OMIM:             | 600210                 |
| UniProt:          | <a href="#">Q13761</a> |

### Application Details

|                    |                                 |
|--------------------|---------------------------------|
| Application Notes: | WB: 1:500~1:1000 ELISA: 1:10000 |
| Restrictions:      | For Research Use only           |

### Handling

|                    |                                                                                                                        |
|--------------------|------------------------------------------------------------------------------------------------------------------------|
| Format:            | Liquid                                                                                                                 |
| Concentration:     | 1 mg/mL                                                                                                                |
| Buffer:            | phosphate buffered saline (without Mg2+ and Ca2+), pH 7.4, 150 mM NaCl, 0.02 % sodium azide and 50 % glycerol.         |
| Preservative:      | Sodium azide                                                                                                           |
| Precaution of Use: | This product contains sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
| Storage:           | -20 °C                                                                                                                 |
| Storage Comment:   | Stable at -20°C for at least 1 year.                                                                                   |
