Datasheet for ABIN1459078

**RPL15 Protein (AA 1-165) (His tag)**

## Overview

Quantity:	1 mg
Target:	RPL15
Protein Characteristics:	AA 1-165
Origin:	Chicken
Source:	Yeast
Protein Type:	Recombinant
Purification tag / Conjugate:	This RPL15 protein is labelled with His tag.
Application:	ELISA

## Product Details

Sequence:	PRPTRPDKAR RLGKAKQGY VIYRVVRRG GRKRPVPGA TYGKPVHHGV NQLKFARSLQ SVAEERAGRH CGALRVLSY WVGEDSTYKF FEVLIDPFH KRIRNPDTQ WITKPVHKHR EMRGLTSAGR KSRGLGKGHK FHHTIGGSRR AAWRRRNTLQ LHYR
Specificity:	Gallus gallus (Chicken)
Characteristics:	Please inquire if you are interested in this recombinant protein expressed in E. coli, mammalian cells or by baculovirus infection. Be aware about differences in price and lead time.
Purity:	> 90 %

## Target Details

Target:	RPL15
Alternative Name:	60S ribosomal protein L15 (RPL15) ( <a href="#">RPL15 Products</a> )

## Target Details

Background:	Recommended name: 60S ribosomal protein L15. Alternative name(s): L10
-------------	--

UniProt:	<a href="#">P51417</a>
----------	------------------------

## Application Details

Comment:	The yeast protein expression system is the most economical and efficient eukaryotic system for secretion and intracellular expression. A protein expressed by the mammalian cell system is of very high-quality and close to the natural protein. But the low expression level, the high cost of medium and the culture conditions restrict the promotion of mammalian cell expression systems. The yeast protein expression system serve as a eukaryotic system integrate the advantages of the mammalian cell expression system. A protein expressed by yeast system could be modiflicated such as glycosylation, acylation, phosphorylation and so on to ensure the native protein conformation. It can be used to produce protein material with high added value that is very close to the natural protein. Our proteins produced by yeast expression system has been used as raw materials for downstream preparation of monoclonal antibodies.
----------	--

Restrictions:	For Research Use only
---------------	-----------------------

## Handling

Format:	Lyophilized
---------	-------------

Concentration:	0.2-2 mg/mL
----------------	-------------

Buffer:	Tris-based buffer, 50 % glycerol
---------	----------------------------------

Handling Advice:	Repeated freezing and thawing is not recommended. Store working aliquots at 4 °C for up to one week
------------------	---

Storage:	-20 °C
----------	--------

Storage Comment:	Store at -20 °C, for extended storage, conserve at -20 °C or -80 °C.
------------------	--
