Datasheet for ABIN1460292 CRCP Protein (AA 1-148) (His tag)

Overview	
Quantity:	1 mg
Target:	CRCP
Protein Characteristics:	AA 1-148
Origin:	Cow
Source:	Yeast
Protein Type:	Recombinant
Purification tag / Conjugate:	This CRCP protein is labelled with His tag.
Application:	ELISA
Product Details	
Sequence:	MEVKDANAAL LSNYEVFQLL TDLKEQRKES GKNKHSSGQQ NLNTITYETL KYISKTPCKH
	QSPEIVREFL TAMKSHKLTK AEKLQLLNHR PVTAVEIQLM VEESEERLTE EQIEALLHTV
	TSILPAGPEA EQQQNASDDV AMDEEDPA
Specificity:	Bos taurus (Bovine)
Characteristics:	Please inquire if you are interested in this recombinant protein expressed in E. coli, mammalien
	cells or by baculovirus infection. Be aware about differences in price and lead time.
Purity:	> 90 %
Target Details	
Target:	CRCP
Alternative Name:	DNA-directed RNA polymerase III subunit RPC9 (CRCP) (CRCP Products)

Target Details	
Background:	Recommended name: DNA-directed RNA polymerase III subunit RPC9. Short name= RNA polymerase III subunit C9
UniProt:	A0JN61
Application Details	
Comment:	The yeast protein expression system is the most economical and efficient eukaryotic system for secretion and intracellular expression. A protein expressed by the mammalian cell system is of very high-quality and close to the natural protein. But the low expression level, the high cost of medium and the culture conditions restrict the promotion of mammalian cell expression systems. The yeast protein expression system serve as a eukaryotic system integrate the advantages of the mammalian cell expression system. A protein expressed by yeast system could be modificated such as glycosylation, acylation, phosphorylation and so on to ensure the native protein conformation. It can be used to produce protein material with high added value that is very close to the natural protein. Our proteins produced by yeast expression system has been used as raw materials for downstream preparation of monoclonal antibodies.
Restrictions:	For Research Use only
Handling	Luophilizod
Format: Concentration:	Lyophilized 0.2-2 mg/mL
Buffer:	Tris-based buffer, 50 % glycerol
Handling Advice:	Repeated freezing and thawing is not recommended. Store working aliquots at 4 °C for up to one week
Storage:	-20 °C
Storage Comment:	Store at -20 °C, for extended storage, conserve at -20 °C or -80 °C.
