Datasheet for ABIN1473304 FABP6 Protein (AA 2-128) (His tag)

Alternative Name:	Gastrotropin (FABP6) (FABP6 Products)
Target:	FABP6
Target Details	
Purity:	> 90 %
	cells or by baculovirus infection. Be aware about differences in price and lead time.
Characteristics:	Please inquire if you are interested in this recombinant protein expressed in E. coli, mammalier
Specificity:	Oryctolagus cuniculus (Rabbit)
	ERVSKRLA
	TNKFTIGKES EIQTFGGKKF KAVVNMEGGK VVANFPNYQH TSEIKGDKLV EVSSIGGVTY
Sequence:	AFTGKFEME SEKNYDEFMK LLGLPSDVVE KSRNIKIVTE IKQDGQDFTW SHHYSGGQIM
Product Details	
Application:	ELISA
Purification tag / Conjugate:	This FABP6 protein is labelled with His tag.
Protein Type:	Recombinant
Source:	Yeast
Origin:	Rabbit
Protein Characteristics:	AA 2-128
Target:	FABP6
Quantity:	1 mg
Overview

Target Details	
Background:	Recommended name: Gastrotropin. Short name= GT. Alternative name(s): Fatty acid-binding protein 6 Ileal lipid-binding protein. Short name= ILBP
UniProt:	P50119
Application Details	
Comment:	The yeast protein expression system is the most economical and efficient eukaryotic system for secretion and intracellular expression. A protein expressed by the mammalian cell system is of very high-quality and close to the natural protein. But the low expression level, the high cost of medium and the culture conditions restrict the promotion of mammalian cell expression systems. The yeast protein expression system serve as a eukaryotic system integrate the advantages of the mammalian cell expression system. A protein expressed by yeast system could be modificated such as glycosylation, acylation, phosphorylation and so on to ensure the native protein conformation. It can be used to produce protein material with high added value that is very close to the natural protein. Our proteins produced by yeast expression system has been used as raw materials for downstream preparation of monoclonal antibodies.
Restrictions:	For Research Use only

Handling

Format:	Lyophilized
Concentration:	0.2-2 mg/mL
Buffer:	Tris-based buffer, 50 % glycerol
Handling Advice:	Repeated freezing and thawing is not recommended. Store working aliquots at 4 °C for up to one week
Storage:	-20 °C
Storage Comment:	Store at -20 °C, for extended storage, conserve at -20 °C or -80 °C.
