Datasheet for ABIN1509971  
**YacG Protein (AA 1-63) (His tag)**

### Overview

|                               |   |
|-------------------------------|---|
| Quantity:                     | 1 mg  |
| Target:                       | YacG  |
| Protein Characteristics:      | AA 1-63                                     |
| Origin:                       | Salmonella typhi                            |
| Source:                       | Yeast                                       |
| Protein Type:                 | Recombinant                                 |
| Purification tag / Conjugate: | This YacG protein is labelled with His tag. |
| Application:                  | ELISA                                       |

### Product Details

|              |  |
|--------------|--|
| Sequence:    | MSDVTVVNCP TCGKPVVWGE ISPFKPFCSK RCQLIDLGEW AAEEKRIASS GDQSDSDDWS<br>EER |
| Specificity: | Salmonella typhi   |
| Purity:      | > 90 %   |

### Target Details

|             |                               |
|-------------|-------------------------------|
| Target:     | YacG                          |
| Abstract:   | <a href="#">YacG Products</a> |
| Background: | DNA gyrase inhibitor YacG     |
| UniProt:    | <a href="#">P67482</a>        |

## Application Details

---

Restrictions: For Research Use only

## Handling

---

Format: Lyophilized

Buffer: PBS pH 7.4, 50% glycerol

Handling Advice: Repeated freezing and thawing is not recommended. Store working aliquots at 4°C *for up to one week*

Storage: -20 °C

Storage Comment: Store at -20 °C, for extended storage, conserve at -20 °C or -80 °C.
