Product Details

Immunogen:	The antiserum was produced against synthesized peptide derived from human TFII-I around the phosphorylation site of Tyr248.
Isotype:	IgG
Specificity:	TFII-I (Phospho-Tyr248) Antibody detects endogenous levels of TFII-I only when phosphorylated at Tyr248. PhosphorylationH:Y248 M:Y248 R:Y248
Purification:	The antibody was purified from rabbit antiserum by affinity-chromatography using phospho peptide. The antibody against non-phospho peptide was removed by chromatography using corresponding non-phospho peptide.
Purity:	> 95 %
