

Datasheet for ABIN1604816

**anti-TIM3 antibody (Conformational Domain)**[Go to Product page](#)

## Overview

|                      |                                                          |
|----------------------|----------------------------------------------------------|
| Quantity:            | 100 µg                                                   |
| Target:              | TIM3 (TIM 3)                                             |
| Binding Specificity: | AA 22-200, Conformational Domain                         |
| Reactivity:          | Human                                                    |
| Host:                | Mouse                                                    |
| Clonality:           | Monoclonal                                               |
| Conjugate:           | This TIM3 antibody is un-conjugated                      |
| Application:         | ELISA, Immunofluorescence (IF), Immunoprecipitation (IP) |

## Product Details

|                             |                                                                                                                                               |
|-----------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------|
| Immunogen:                  | DNA vaccine expressing ectodomain of human TIM-3 protein (AA 22-200)                                                                          |
| Clone:                      | 2D9                                                                                                                                           |
| Isotype:                    | IgG1                                                                                                                                          |
| Specificity:                | Human TIM-3 (Ectodomain). Reacts with human TIM-3 protein. TIM-3 is the member of T-cell immunoglobulin and mucin domain-containing proteins. |
| Cross-Reactivity (Details): | Cross-reactivity not tested.                                                                                                                  |

## Target Details

|                   |                                          |
|-------------------|------------------------------------------|
| Target:           | TIM3 (TIM 3)                             |
| Alternative Name: | TIM-3 ( <a href="#">TIM 3 Products</a> ) |

## Target Details

|              |                                                                                        |
|--------------|----------------------------------------------------------------------------------------|
| Target Type: | Virus                                                                                  |
| Background:  | TIM-3 is also a putative receptor of HAV.                                              |
| Pathways:    | <a href="#">Regulation of Lipid Metabolism by PPARalpha, Cancer Immune Checkpoints</a> |

## Application Details

|               |                       |
|---------------|-----------------------|
| Restrictions: | For Research Use only |
|---------------|-----------------------|

## Handling

|                    |                                                                          |
|--------------------|--------------------------------------------------------------------------|
| Format:            | Liquid                                                                   |
| Buffer:            | Each vial contains 100 µg purified IgG in 100 µL PBS with 40 % glycerol. |
| Precaution of Use: | Non-hazardous                                                            |
| Handling Advice:   | Do not freeze                                                            |
| Storage:           | 4 °C                                                                     |
| Storage Comment:   | Store at 4 °C, stable for 6 months from the date of shipment.            |
| Expiry Date:       | 6 months                                                                 |
