

Datasheet for ABIN1604995

**anti-Influenza A Virus Matrix Protein 1 antibody (H5N1)**[Go to Product page](#)

## Overview

|                      |                                                                   |
|----------------------|-------------------------------------------------------------------|
| Quantity:            | 200 µg                                                            |
| Target:              | Influenza A Virus Matrix Protein 1 (M1)                           |
| Binding Specificity: | H5N1                                                              |
| Reactivity:          | Influenza A Virus H5N1                                            |
| Virus Strain:        | A/Vietnam/1203/2004                                               |
| Host:                | Rabbit                                                            |
| Clonality:           | Polyclonal                                                        |
| Conjugate:           | This Influenza A Virus Matrix Protein 1 antibody is un-conjugated |
| Application:         | Western Blotting (WB)                                             |

## Product Details

|                             |                                                                          |
|-----------------------------|--------------------------------------------------------------------------|
| Immunogen:                  | Matrix protein M1 (H5N1) (A/ Vietnam/1203/2004 (H5N1))                   |
| Isotype:                    | IgG                                                                      |
| Specificity:                | M1 (H5N1) (Human). Reacts with human and avian Matrix protein M1 (H5N1). |
| Cross-Reactivity (Details): | cross-reactivity to other M1 not tested.                                 |

## Target Details

|              |                                         |
|--------------|-----------------------------------------|
| Target:      | Influenza A Virus Matrix Protein 1 (M1) |
| Abstract:    | <a href="#">M1 Products</a>             |
| Target Type: | Influenza Protein                       |

## Application Details

Restrictions: For Research Use only

## Handling

|                    |                                                                                                           |
|--------------------|-----------------------------------------------------------------------------------------------------------|
| Format:            | Liquid                                                                                                    |
| Buffer:            | Each vial contains 200 µg purified IgG in 100 µL PBS with less than 0.1 % gelatin and 0.1 % sodium Azide. |
| Preservative:      | Sodium azide                                                                                              |
| Precaution of Use: | Non-hazardous                                                                                             |
| Handling Advice:   | Do not freeze                                                                                             |
| Storage:           | 4 °C                                                                                                      |
| Storage Comment:   | Store at 4 °C, stable for 1 year from the date of shipment.                                               |
| Expiry Date:       | 1 year                                                                                                    |
