IFIT3 Protein (AA 1-490) (His tag)

Overview

Quantity:	1 mg
Target:	IFIT3
Protein Characteristics:	AA 1-490
Origin:	Chimpanzee
Source:	Yeast
Protein Type:	Recombinant
Purification tag / Conjugate:	This IFIT3 protein is labelled with His tag.
Application:	ELISA

Product Details	
Sequence:	MSEVTKNSLE KILPQLKCHF TWNLFKEESV SRDLEDRVCN QIEFLNTEFK ATMYNLLAYI
	KHLDGNNEAA LECLRQAEEL IQQEHADQAE IRSLVTWGNY VWVYYHLGRL SDAQIYVDKV

	QGLIHKQNGD LLQAAKCYEK ELGRLLRDAP SGIGSIFLSA SELEDGSEEM GQGAVSSSPR
	ELLSNSEQLN
Specificity:	Pan troglodytes (Chimpanzee)
Characteristics:	Please inquire if you are interested in this recombinant protein expressed in E. coli, mammalien
	cells or by baculovirus infection. Be aware about differences in price and lead time.

Product Details > 90 % Purity: **Target Details** Target: IFIT3 Abstract: IFIT3 Products Background: Recommended name: Interferon-induced protein with tetratricopeptide repeats 3. Short name= IFIT-3 UniProt: A5A6J9 **Application Details** The yeast protein expression system is the most economical and efficient eukaryotic system Comment: for secretion and intracellular expression. A protein expressed by the mammalian cell system is of very high-quality and close to the natural protein. But the low expression level, the high cost of medium and the culture conditions restrict the promotion of mammalian cell expression systems. The yeast protein expression system serve as a eukaryotic system integrate the advantages of the mammalian cell expression system. A protein expressed by yeast system could be modificated such as glycosylation, acylation, phosphorylation and so on to ensure the native protein conformation. It can be used to produce protein material with high added value that is very close to the natural protein. Our proteins produced by yeast expression system has been used as raw materials for downstream preparation of monoclonal antibodies. Restrictions: For Research Use only Handling Format: Lyophilized Concentration: 0.2-2 mg/mL Buffer: Tris-based buffer, 50 % glycerol Repeated freezing and thawing is not recommended. Store working aliquots at 4 °C for up to Handling Advice: one week

Store at -20 °C, for extended storage, conserve at -20 °C or -80 °C.

Storage:

Storage Comment:

-20 °C
