Datasheet for ABIN1619210

**Crowded By Cid Protein (CBC) (AA 1-424) (His tag)**

## Overview

|                               |   |
|-------------------------------|---|
| Quantity:                     | 1 mg  |
| Target:                       | Crowded By Cid (CBC)                                  |
| Protein Characteristics:      | AA 1-424  |
| Origin:                       | Aedes aegypti   |
| Source:                       | Yeast   |
| Protein Type:                 | Recombinant   |
| Purification tag / Conjugate: | This Crowded By Cid protein is labelled with His tag. |
| Application:                  | ELISA   |

## Product Details

|                  |   |
|------------------|---|
| Sequence:        | MSDDQPGPRT EYKLETDSEL RFEMENGNDK VTVLLNGHA ELYGTELVKM KPYEFGVGAK<br>VAIFTYHGCT IELRGKPDVA YVARETPMVQ YLNCNSALEH LRTKAEEDDV RGPVAMVVGP<br>MDVGKSTLCR IFLNYAVRLG RRPIYVDLDV GGGIAIPGT IGALLVERPA PVAEGFSQQA<br>PLVYHFGHTN PSENDVFYDA LITKLAETTL ERLQANKRAK HSGMIINTCG WVKQGGYHHI<br>LHAAKEFEVN AIFVLDQERL YNELLRDVAS KTVQVVYLPK SGGVVKRTRS QRAEARDNRI<br>REYFYGSKMP LYPHSFDVKF SDVKIFKVG PALPDSCLPL GMKKEDNFTK LVAVQPSMQL<br>LHHILAVSFA ESIEENVIQS NVAGFCVTD VNMEKEVLT I LSPQPRPLPQ TILLVSDLQF MDSH |
| Specificity:     | Aedes aegypti (Yellowfever mosquito) (Culex aegypti)  |
| Characteristics: | Please inquire if you are interested in this recombinant protein expressed in E. coli, mammalian cells or by baculovirus infection. Be aware about differences in price and lead time.  |
| Purity:          | > 90 %  |

## Target Details

---

|                   |   |
|-------------------|---|
| Target:           | Crowded By Cid (CBC)  |
| Alternative Name: | Protein CLP1 homolog (cbc) ( <a href="#">CBC Products</a> ) |
| Background:       | Recommended name: Protein CLP1 homolog                      |
| UniProt:          | <a href="#">Q16WA6</a>                                      |

## Application Details

---

|               |   |
|---------------|---|
| Comment:      | <p>The yeast protein expression system is the most economical and efficient eukaryotic system for secretion and intracellular expression. A protein expressed by the mammalian cell system is of very high-quality and close to the natural protein. But the low expression level, the high cost of medium and the culture conditions restrict the promotion of mammalian cell expression systems. The yeast protein expression system serve as a eukaryotic system integrate the advantages of the mammalian cell expression system. A protein expressed by yeast system could be modified such as glycosylation, acylation, phosphorylation and so on to ensure the native protein conformation. It can be used to produce protein material with high added value that is very close to the natural protein. Our proteins produced by yeast expression system has been used as raw materials for downstream preparation of monoclonal antibodies.</p> |
| Restrictions: | For Research Use only   |

## Handling

---

|                  |   |
|------------------|---|
| Format:          | Lyophilized   |
| Concentration:   | 0.2-2 mg/mL   |
| Buffer:          | Tris-based buffer, 50 % glycerol  |
| Handling Advice: | Repeated freezing and thawing is not recommended. Store working aliquots at 4 °C for up to one week |
| Storage:         | -20 °C  |
| Storage Comment: | Store at -20 °C, for extended storage, conserve at -20 °C or -80 °C.                                |
