

Datasheet for ABIN1620861

FEZF1 Protein (AA 1-429) (His tag)

Overview

Quantity:	1 mg
Target:	FEZF1
Protein Characteristics:	AA 1-429
Origin:	Zebrafish (Danio rerio)
Source:	Yeast
Protein Type:	Recombinant
Purification tag / Conjugate:	This FEZF1 protein is labelled with His tag.
Application:	ELISA

Арріїсаціон.	LLIOA	
Product Details		
Sequence:	MDSALYHSAG IFGAPSASTG GSMIASSKPL AFSIERIMAR TPEPKSIPFP NLFQAPVGKA	
	EPKQSPAPLH CMIPLMPLAC EPPHKLHING LDHPDTFAYN ANELLSIGLN YKNEQQDAAP

	CNICNKAFHQ VYNLTFHMHT HNDKKPFTCP TCGKGFCRNF DLKKHIRKLH DISPGPHSPP	
	TPTGNTEGQ	
Specificity:	Danio rerio (Zebrafish) (Brachydanio rerio)	
Characteristics:	Please inquire if you are interested in this recombinant protein expressed in E. coli, mammalien	
	cells or by baculovirus infection. Be aware about differences in price and lead time.	

Product Details > 90 % Purity: **Target Details** Target: FEZF1 Fez family zinc finger protein 1 (fezf1) (FEZF1 Products) Alternative Name Background: Recommended name: Fez family zinc finger protein 1 UniProt: Q25C93 **Application Details** Comment: The yeast protein expression system is the most economical and efficient eukaryotic system for secretion and intracellular expression. A protein expressed by the mammalian cell system is of very high-quality and close to the natural protein. But the low expression level, the high cost of medium and the culture conditions restrict the promotion of mammalian cell expression systems. The yeast protein expression system serve as a eukaryotic system integrate the advantages of the mammalian cell expression system. A protein expressed by yeast system could be modificated such as glycosylation, acylation, phosphorylation and so on to ensure the native protein conformation. It can be used to produce protein material with high added value that is very close to the natural protein. Our proteins produced by yeast expression system has been used as raw materials for downstream preparation of monoclonal antibodies. Restrictions: For Research Use only Handling

Format:	Lyophilized
Concentration:	0.2-2 mg/mL
Buffer:	Tris-based buffer, 50 % glycerol
Handling Advice:	Repeated freezing and thawing is not recommended. Store working aliquots at 4 °C for up to one week
Storage:	-20 °C
Storage Comment:	Store at -20 °C, for extended storage, conserve at -20 °C or -80 °C.
