Datasheet for ABIN1621569  
**CD3G Protein (AA 23-111) (His tag)**

### Overview

Quantity:	1 mg
Target:	CD3G
Protein Characteristics:	AA 23-111
Origin:	Cow
Source:	Yeast
Protein Type:	Recombinant
Purification tag / Conjugate:	This CD3G protein is labelled with His tag.
Application:	ELISA

### Product Details

Sequence:	HVKEVKVD DNREDGSVIL ICVTNDTTIT WLKDVEQIGS GDTKKNTWNL GSSTKDPRGI YKCEGSNNQS KSLQIYYRMC QNCIELNPST V
Specificity:	Bos taurus (Bovine)
Characteristics:	Please inquire if you are interested in this recombinant protein expressed in E. coli, mammalian cells or by baculovirus infection. Be aware about differences in price and lead time.
Purity:	> 90 %

### Target Details

Target:	CD3G
Alternative Name:	T-cell surface glycoprotein CD3 gamma chain (CD3G) ( <a href="#">CD3G Products</a> )

## Target Details

---

Background:	Recommended name: T-cell surface glycoprotein CD3 gamma chain. Alternative name(s): T-cell receptor T3 gamma chain CD_antigen= CD3g
UniProt:	<a href="#">Q28074</a>
Pathways:	<a href="#">TCR Signaling, CXCR4-mediated Signaling Events</a>

## Application Details

---

Comment:	The yeast protein expression system is the most economical and efficient eukaryotic system for secretion and intracellular expression. A protein expressed by the mammalian cell system is of very high-quality and close to the natural protein. But the low expression level, the high cost of medium and the culture conditions restrict the promotion of mammalian cell expression systems. The yeast protein expression system serve as a eukaryotic system integrate the advantages of the mammalian cell expression system. A protein expressed by yeast system could be modified such as glycosylation, acylation, phosphorylation and so on to ensure the native protein conformation. It can be used to produce protein material with high added value that is very close to the natural protein. Our proteins produced by yeast expression system has been used as raw materials for downstream preparation of monoclonal antibodies.

Restrictions:	For Research Use only
---------------	-----------------------

## Handling

---

Format:	Lyophilized
Concentration:	0.2-2 mg/mL
Buffer:	Tris-based buffer, 50 % glycerol
Handling Advice:	Repeated freezing and thawing is not recommended. Store working aliquots at 4 °C for up to one week
Storage:	-20 °C
Storage Comment:	Store at -20 °C, for extended storage, conserve at -20 °C or -80 °C.
