Datasheet for ABIN1625891 ATG4B Protein (AA 1-478) (His tag)

1 mg		
ATG4B		
AA 1-478		
Oryza sativa		
Yeast		
Recombinant		
This ATG4B protein is labelled with His tag.		
ELISA

Product Details

Purity:

> 90 %

Target Details

Target:	ATG4B		
Alternative Name:	Cysteine protease ATG4B (ATG4B) (ATG4B Products)		
Background:	Recommended name: Cysteine protease ATG4B.		
	EC= 3.4.22		
	Alternative name(s): Autophagy-related protein 4 homolog B.		
	Short name= Protein autophagy 4 OsAtg4		
UniProt:	Q2XPP4		
Pathways:	Autophagy		
Application Details			
Comment:	The yeast protein expression system is the most economical and efficient eukaryotic system		
	for secretion and intracellular expression. A protein expressed by the mammalian cell system is		
	of very high-quality and close to the natural protein. But the low expression level, the high cost		
	of medium and the culture conditions restrict the promotion of mammalian cell expression		
	systems. The yeast protein expression system serve as a eukaryotic system integrate the		
	advantages of the mammalian cell expression system. A protein expressed by yeast system		
	could be modificated such as glycosylation, acylation, phosphorylation and so on to ensure the		
	native protein conformation. It can be used to produce protein material with high added value		

Restrictions:

For Research Use only

Handling

Format:	Lyophilized	
Concentration:	0.2-2 mg/mL	
Buffer:	Tris-based buffer, 50 % glycerol	
Handling Advice:	Repeated freezing and thawing is not recommended. Store working aliquots at 4 °C for up to one week	

been used as raw materials for downstream preparation of monoclonal antibodies.

Handling

	Storage:	-20 °C		
--	----------	--------	--	--

Storage Comment:

Store at -20 °C, for extended storage, conserve at -20 °C or -80 °C.
